Unlock the power of Pages for Mac and iPad! Version 3.0, updated 01/12/2021
Apple's Pages word processor is a big, rich app with hundreds of features tucked away

in nooks and crannies, making Michael E. Cohen's comprehensive book an essential resource for newbies and experts alike. Whether you prefer to dive into the details or get quick help with a particular feature, this book has got you covered. In this massively revised third edition, Michael expands his already extensive guide, detailing all the significant changes Apple has made to Pages since the last version of the book was released, including support for macOS 11 Big Sur and iPadOS 14. Among many other new and updated features, learn about adding drop caps to paragraphs, adding titles and captions to objects, using shared iCloud folders with Pages, and importing iBooks Author projects; and on an iPad, discover how to view two documents at once, use the new reading view, and enter handwritten text. Note: This edition of the book focuses primarily on the Mac and iPad versions of Pages, although it does cover the iPhone/iPod touch and web versions of the app to a limited extent. With Michael's help, you can navigate Pages like a pro. You'll also learn how to:

- Find all the tools you need, whether on a Mac or an iPad
- Do everyday word processing, including working with fonts, tabs, indents, rulers, search and replace, spell checking, and more
- Format longer, more complex documents, with customized headers, footers, page numbers, tables of content, footnotes, and section breaks
- Manage styles, including paragraph styles, character styles, list styles, and object styles
- Create your own

templates, complete with master objects • Master the many multi-touch gestures in iPadOS that give you pinpoint control over page elements • Include complex tables and charts and make them look exactly the way you want • Customize layout and manipulate graphics like a pro • Collaborate with others in real time using iCloud • Share your documents across devices, using Mac, iPad, iPhone/iPad touch, or almost any web browser

The new second edition **LEARNING WITH COMPUTERS I** (Level Green, Grade 7) is a revision of the first edition project-based text to cover Microsoft Office 2007 and 2010. There is also a companion text, **LEARNING WITH COMPUTERS II** (Level Orange, Grade 8). This series for middle school students delivers a strong foundation in keyboarding and computer applications. In this project based text, students are introduced to the Explorers Club where four young members of the club -- Luis, Ray, Julie, and Lin -- guide students on Microsoft Office explorations. Along the way, each student keeps a personal journal about their explorations. The text offers multiple opportunities to reinforce and maintain basic keyboarding, word processing, spreadsheet, presentation, database, graphics, and Internet skills. Students are also introduced to new grade-level appropriate computer skills based on the National Educational Technology Standards (NETS). Additionally, the text emphasizes research, reading, and writing activities relevant to

social studies, science, math, and language arts curriculum. The text for use with Windows applications, is divided into 4 units; Word Processing, Spreadsheets, Presentations (Graphics, Multimedia, and Integration) and Databases. Each unit contains multiple projects for a total of 18 projects per text, plus an introductory project. Each project focuses on a group of grade-level appropriate objectives for particular computer applications. Several hands-on activities within each project are designed around these objectives. This one-semester text can be used as a stand alone or in conjunction with South-Western's MicroType keyboarding software. MicroType is an engaging, easy-to-use program that teaches new-key learning and skill building. Features include 3-D animations, videos, and fun interactive games.
