"As much about a father-son relationship as it is a survival story . . . his father's life philosophy . . . got him down the mountain and through life." —USA Today Norman Olstead's New York Times – bestselling memoir *Crazy for the Storm* is the story of the harrowing plane crash the author miraculously survived at age eleven, framed by the moving tale of his complicated relationship with his charismatic, adrenaline-addicted father. Destined to stand with other classic true stories of man against nature—*Into Thin Air* and *Into the Wild* by Jon Krakauer; Sebastian Junger's *The Perfect Storm*—it is a literary triumph that novelist Russell Banks (*Affliction*) calls, "A heart-stopping story beautifully told . . . Norman Olstead has written a book that may well be read for generations." "A heart-stopping adventure that ends in tragedy and in triumph, a love story that fearlessly explores the bond between a father and son and what it means to lead a life without limits." —Susan Cheever, award-winning author of *American Bloomsbury* "An elegant memoir as well as a transformative coming-of-age tale. When he leaves his father's limp body behind on the icy plateau—giving it a final kiss and caress as it's claimed by the snow—Olstead takes his first perilous steps not just into survival, but into adulthood." —New York Post "Cinematic and personal . . . Olstead's insights into growing up in a broken home and adolescence in southern California are as engrossing as the story of his trip down the mountain." —Chicago Tribune "Riveting." —Entertainment Weekly

Ecclesiastes Canongate U.S.

Life is a battleground. Every single one of us will face difficult times. It is war! And the war is intense. Challenges and hurdles are part of everyday life. Problems and difficulties are companions of every human being. It is a fact that, as long as we are walking through this journey called life, we are bound to face challenges and fight battles. It is the fight to win the battles, overcome the challenges and crossover the obstacles that leave us journeying through life with a dysfunctional and skewed mindset. When we encounter painful experiences, the pain sinks deep into the brain. When this happens, the painful memories outweigh the happy memories in the vortex of the mind. This book is written to help you know that through the transformation of the mind, you have the power in your hands to turn your circumstances around for your good. It's all in the mind and our mindset is everything. Our brains are programmed to think in a certain way and we as human beings have the power to reprogram our mind to think the way we want it to think, break out of mental imprisonment, win the battles of the mind and ultimately become success conscious.

"Unique and thorough, Warner's handbook could turn any determined reader into a regular Malcolm Gladwell." —Booklist For anyone aiming to improve their skill as a writer, a revolutionary new approach to establishing robust writing practices inside and outside the classroom, from the author of *Why They Can't Write* After a decade of teaching writing using the same methods he'd experienced as a student many years before, writer, editor, and educator John Warner realized he could do better. Drawing on his classroom experience and the most persuasive research in contemporary composition studies, he devised an innovative new framework: a step-by-step method that moves the student through a series of writing problems, an organic, bottom-up writing process that exposes and acculturates them to the ways writers work in the world. The time is right for this new and groundbreaking approach. The most popular books on composition take a formalistic view, utilizing "templates" in order to mimic the sorts of rhetorical moves academics make. While this is a valuable element of a writing education, there is room for something that speaks more broadly. *The Writer's Practice* invites students and novice writers into an intellectually engaging, active learning process that prepares them for a wider range of academic and real-world writing and allows them to become invested and engaged in their own work.
