Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education—by doing it yourself. The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," when the building blocks of information are absorbed through memorization and rules; the middle school "logic stage," in which the student begins to think more analytically; and the high-school "rhetoric stage," where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child—whether full-time or as a supplement to classroom education—in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in The Well-Trained Mind to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. The Well-Trained Mind will give you the tools you'll need to teach your child with confidence and success.

The Well-Trained Mind: A Guide to Classical Education at Home (Fourth Edition)

A solid vocabulary is crucial for testing, writing, and the precise communication required by daily life. Using a contextual approach, Wordly Wise 3000 students are taught to say unfamiliar words and identify any possible similarities to other words, use the word in context, break the word down into parts, and finally look it up. Three thousand carefully selected words taken from literature, textbooks, and SAT-prep books form the backbone of this vocabulary series. Each lesson begins with a Word List that includes pronunciations, parts of speech, and concise definitions, and uses each word in an interesting, contextual, sentence. Wordly Wise 3000, Book 7 is made up of 20 lessons with 15 words in each lesson. In Book 7, vocabulary instruction focuses on preparing students with strategies to unlock the meaning of words they will encounter in content area texts, literature, and high-stakes tests. Comprehension of the vocabulary words is facilitated and reinforced through Greek and Latin word studies with an emphasis on prefixes, suffixes, parts of speech, synonyms, antonyms, and analogies. This third edition features the same word lists as the second edition, however, the passages and questions that follow the passages have been updated and assigned measures from The Lexile Framework for Reading. Wordly Wise 3000, 3rd Edition is not compatible with 2nd Edition teacher's guides and resources. Wordly Wise 3000, Book 7 contains 20 lessons; words taught in book 7 include: flabbergast, formidable, grueling, illustrious, lavish, maneuver, naive, perturb, replenish, smolder, ungainly, vulnerable and more. 216 two-tone pages, softcover.

Some people are ordained for greatness?Those people usually have a lot of drama in their life. Drama I happily do without. I live in a

forgotten corner of nowhere for a reason: there is safety in anonymity. I have enough problems just trying to get by. But when Kieran, a sinfully sexy demigod at the pinnacle of power, crashes into my life, suddenly my whole world is turned upside down. He's harboring a deadly secret, one that could destroy all he holds dear. He thinks I'm the key to his salvation, and he wants me to help him claim vengeance. He also wants me with a passion that burns my body from the inside out. To ignore him is impossible, but to give in to my desires, even for a night, would thrust me into danger I might not survive. But can I resist the temptation?

A collector's edition of the classic, illustrated, and comprehensive history of magic and the occult • Written by renowned Surrealist and magic scholar Kurt Seligmann (1900-1962) • Includes all 250 illustrations from the original 1948 edition • Explores magical practices and beliefs from their origins in the ancient world through the heyday of secret societies in the 18th century In the occult classic *The Mirror of Magic*, renowned Surrealist Kurt Seligmann (1900-1962) draws from his encyclopedic practitioner's knowledge and extensive antiquarian collection to offer a comprehensive, illustrated history of magic and the occult from Mesopotamia and ancient Egypt through the 18th century. He explores the gods and divinatory arts of the legendary Sumerians and the star-wise Babylonians, including the birth of astrology. He examines the afterlife beliefs of the ancient Egyptians and the dream interpretation practices and oracles of ancient Greece, including the mysteries of Eleusis and the magical philosophy of Plato, Socrates, and other Greeks. He uncovers the origins of Gnosticism and the suppression and banishment of magic by the post-pagan, Christian emperors of Rome. Seligmann reviews the principles of alchemy, sharing famous transmutations and allegorical illustrations of the alchemical process and explores the Hermetica and its remarkable adepts. Investigating the Middle Ages, the author discusses the work of European magicians of the time, including Albertus Magnus, Roger Bacon, Agrippa, Nostradamus, and Pico Della Mirandola. He studies the

medieval practices of devil worship, witchcraft, and black magic, as well as the "Cabala" in both its Hebrew and Christian forms. He also examines the art of the Tarot and many lesser known divination techniques. He explores the development of secret societies, including Freemasonry and Rosicrucianism, in the 17th century and the increase in occult publications and magical science in the 18th century. First published in 1948, this history of magic and the occult seeks to "mirror" the magical worldview throughout the ages. Beautifully illustrated with images from the author's rare library, this collector's edition features all of the artwork--more than 250 images--from the original 1948 edition.
