Sharks Get

Cancer, Mole Rats Don't W. Norton & Company
This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity

in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the

greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

The Paleontology of Gran Barranca Carson-Dellosa Publishing The Dingo Debate explores the intriguing and relatively unknown story of Australia's most controversial animal – the dingo.

Throughout its existence, the

dingo has been shaped by its interactions with human societies. With this as a central theme, the book traces the story of the dingo from its beginnings as a semi-domesticated wild dog in South-east Asia, to its current status as a wild Australian native animal under threat of extinction. It describes how dingoes made their way to Australia, their subsequent relationship with Indigenous Australians, their successful adaption to the

Australian landscape and their constant battle against the agricultural industry. During these events, the dingo has demonstrated an unparalleled intelligence and adaptable nature seen in few species. The book concludes with a discussion of what the future of the dingo in Australia might look like, what we can learn from our past relationship with dingoes and how this can help to allow a peaceful co-existence. The Dingo Debate reveals

the real dingo beneath the popular stereotypes, providing an account of the dingo ' s behaviour, ecology, impacts and management according to scientific and scholarly evidence rather than hearsay. This book will appeal to anyone with an interest in Australian natural history, wild canids, and the relationship between humans and carnivores. *Amazing Animals!* Island Press

ONE OF THE
NEW YORK
TIMES BOOK

REVIEW'S 10
BEST BOOKS OF
THE YEAR A
major book about
the future of the
world, blending
intellectual and
natural history and
field reporting into a
powerful account of
the mass extinction
unfolding before our
eyes Over the last
half a billion years,
there have been five
mass extinctions,
when the diversity of
life on earth
suddenly and
dramatically
contracted.

Scientists around the
world are currently
monitoring the sixth
extinction, predicted
to be the most
devastating
extinction event
since the asteroid
impact that wiped

out the dinosaurs.
This time around,
the cataclysm is us.
In *The Sixth
Extinction*, two-time
winner of the
National Magazine
Award and *New
Yorker* writer
Elizabeth Kolbert
draws on the work
of scores of
researchers in half a
dozen disciplines,
accompanying
many of them into
the field: geologists
who study deep
ocean cores,
botanists who follow
the tree line as it
climbs up the
Andes, marine
biologists who dive
off the Great Barrier
Reef. She introduces
us to a dozen
species, some
already gone, others
facing extinction,

including the Panamanian golden frog, staghorn coral, the great auk, and the Sumatran rhino. Through these stories, Kolbert provides a moving account of the disappearances occurring all around us and traces the evolution of extinction as concept, from its first articulation by Georges Cuvier in revolutionary Paris up through the present day. The sixth extinction is likely to be mankind's most lasting legacy; as Kolbert observes, it compels us to rethink the fundamental question of what it means to be human.

curriculum, it features review lessons to measure your child's progress, teaching suggestions to extend learning, and answer keys to monitor accuracy.

--Comprehensive Curriculum of Basic Skills is the all-in-one resource for strengthening essential skills.

The Photo Ark
Lorenz Educational Press

The Strange Case of Dr. Jekyll and Mr. Hyde is about a London lawyer named Gabriel John Utterson who investigates strange occurrences between his old friend, Dr. Henry Jekyll, and the evil Edward Hyde.

There are two personalities within

Dr. Jekyll, one apparently good and the other evil; completely opposite levels of morality. The novel's impact is such that it has become a part of the language, with the very phrase "Jekyll and Hyde" coming to mean a person who is vastly different in moral character from one situation to the next. 'The Strange Case of Dr. Jekyll and Mr. Hyde' is a thrilling Gothic horror novel. John Utterson, a prosecutor, is on his weekly walk with his relative, who proceeds to tell him of an encounter with a man he had seen some months ago while coming home

late at night from Cavendish Place. The tale describes a sinister figure named Edward Hyde who tramples a young girl, disappears into a door on the street, and re-emerges to pay off her relatives with 10 pounds in gold and a cheque signed by respectable gentleman Dr. Henry Jekyll (a client and friend of Utterson's) for 90 pounds. Jekyll had recently and suddenly changed his will to make Hyde the sole beneficiary. This development concerns and disturbs Utterson, who makes an effort to seek out Hyde.

Utterson fears that Hyde is blackmailing Jekyll for his money. Upon finally managing to encounter Hyde, Hyde's ugliness, as if deformed, amazes Utterson. Although Utterson cannot say exactly how or why, Hyde provokes an instinctive feeling of revulsion in him. Much to Utterson's surprise, Hyde willingly offers Utterson his address. After one of Jekyll's dinner parties, Utterson stays behind to discuss the matter of Hyde with Jekyll. Utterson notices Jekyll turning pale, yet he assures Utterson that everything involving Hyde is in order and

that he is to be left
alone.
