"The divine mystery, as interpreted by Paul, offers transformation. The believer who identifies with the death and resurrection of Christ by putting to death the old way of life (Rom 6:5-11; Gal 2:20) enters into a new sphere of influence characterized by intimate fellowship with Christ. One who is in this sphere is free from the snare of Adam and the world and is no longer bound by the power of sin and death. The divine mystery also offers a new source of power by the indwelling Holy Spirit. The Spirit brings gifts to those in Christ that enable them to function as community. The highest and most significant of these is love which brings diversity together into unity. The indicative is that the Spirit graces believers with love. The imperative is that they should follow after the example of Paul, and hence Christ, in loving others. The divine Spirit is described as holy and makes holiness possible for those in Christ. The indicative is that fellowship with Christ is possible because of redemption. The imperative is that Christ demands loyalty which cannot be shared with any other, particularly with prostitutes who represent the ways of the world or idols that open doors for demons." --from the Conclusion

Quotes from teachers that stayed with their students—from the life-changing to the head-scratching. My high school chemistry teacher used to tell us, "Carol never wore her safety goggles. The author of *Like My Mother Always Said* and *Like My Father Always Said* returns with a new crowdsourced collection of quips, quotes, and stories from people recalling childhood influences from grade school

instructors to piano teachers, Catholic school sisters, guidance counselors, coaches, and mentors. The Psalms make up the most popular, most universally loved and used book in the Bible, which is the most widely read book in the world. They are hymns, songs, poems, and prayers—at once formal and informal, liturgical and spontaneous, communal and individual. As a result, they have many layers of meaning. In this work, Peter Kreeft focuses on a dozen of the best-known psalms, including Psalms 23 and 51. He leads the reader through his personal explorations of this deep ocean of divinely inspired spiritual water, pulling up treasures for the soul along the way. "What prayers did Jesus and his disciples pray? The Psalms! As all Jews have always done ever since they had them. The Psalms are God's answer to our plea, 'Teach us to pray.' Christ prayed them not only in the synagogue but throughout His life, and at his death." — Peter Kreeft, from the Introduction

Abraham Lincoln never said, "You cannot fool all the people all the time." Thomas Jefferson never said, "That government is best which governs least." And Horace Greeley never said, "Go west, young man." In *They Never Said It*, Paul F. Boller, Jr. and John George examine hundreds of misquotations, incorrect attributions, and blatant fabrications, outlining the origins of the quotes and revealing why we should consign them to the historical trashcan. Many of the misquotes are quite harmless. Some are inadvertent misquotes that have become popular (Shakespeare actually said, "The best part of valor is discretion"), others, the inventions of reporters embellishing a story (Franklin Roosevelt never opened a speech to a DAR group with the salutation, "My fellow immigrants"). But some of the quotes, such as Charles Darwin's supposed deathbed recantation of evolution, falsify the historical record with their blatant dishonesty. And other chillingly vicious ones, filled with virulent racial and religious prejudices, completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible. These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America and the fabricated condemnation of Catholics attributed to Lincoln. An entertaining and thought-provoking book, *They Never Said It* covers a great deal of history and sets it right. Going beyond a mere catalog of popular misconceptions, Boller and George reveal how rightists and leftists, and atheists and evangelists all have at times twisted and even invented the words of eminent figures to promote their own ends. The ultimate debunking reference, it perfectly complements handbooks of quotations.

Alan Watts is "the perfect guide for a course correction in life, away from materialism and its empty promise" (Deepak Chopra). Here he shows us how—in an age of unprecedented anxiety—we must embrace the present and live fully in the now in order to live a fulfilling life. Spending all our time trying to anticipate and plan for the future and to lamenting the past, we forget to embrace the here and now. We are so concerned with tomorrow that we forget to enjoy today. Drawing from Eastern philosophy and religion, Alan Watts shows that it is only by acknowledging what we do not—and cannot—know that we can learn anything truly worth knowing. "Perhaps the foremost interpreter of Eastern disciplines for the contemporary West, Watts had the rare gift of 'writing beautifully the unwritable.'" —Los Angeles Times

From Colleen Hoover, the #1 New York Times bestselling author of *It Ends With Us*, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn't even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn't want love, she doesn't have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

[They Never Said It](#) Wm. B. Eerdmans Publishing

For about one thousand years, the Distichs of Cato were the first Latin text of every student across Europe and latterly the New World. Chaucer, Cervantes, and Shakespeare assumed their audiences knew them well—and they almost certainly did. Yet most Classicists today have either never heard of them or mistakenly attribute them to Cato the Elder. The Distichs are a collection of approximately 150 two-line maxims in hexameters that offer instructions about or reflections on topics such as friendship, money, reputation, justice, and self-control. Wisdom from Rome argues that Classicists (and others) should read the Distichs: they provide important insights into the ancient Roman literate masses' conceptions of society and their views of relationships between the individual, family, community, and state. Newly dated to the first century CE, they are an important addition and often corrective to more familiar contemporary texts that treat the same topics. Moreover, as the field of Classics increasingly acknowledges the intellectual importance of exploring the reception of Classical texts, an introduction to one of the most widely read ancient texts for many centuries is timely and important.
