with a cutting-edge introduction to the field of work and organizational psychology. The main focus is on recent changes that have occurred in the world of work, incorporating their causes, consequences, proposed solutions to the associated problems, and above all, the challenges they pose for work and organizational psychology. Among the topics covered are motivation at work, the concept of stress, and the causes of individual accidents and organizational disasters. Solutions to such problems might include lifelong learning and training, performance management, career development, and employee assistance programmes. This

lively, provocative, and highly readable book will be an essential resource for advanced undergraduate and postgraduate students of work and organizational psychology, as well as business management students, managers and anyone with an interest in human resources management.

### Encore Adulthood

Human Kinetics  
Boomers have unprecedented Levels of education, health, and life expectancy, but confront uncertain futures in the face of a competitive economy and disappearing safety nets. Many seek

new paths during the "encore" years—the time between family- and career-building and old age. In *Encore Adulthood*, Phyllis Moen uses in-depth interviews with Boomer women and men as well as trends in census data to chronicle the risks and opportunities of this evolving life-course phase. While some Boomers improvise purposeful ways of working and living, others experience the costs of cumulative inequality. Moen argues for a range of flexible career, schooling, and

Highlights include: Working with the premise that all portfolios are not the same and may not be completely interchangeable, this book breaks portfolios into three distinct portfolio categories: assessment, career, and personal. Categories are then broken down further into six different types of portfolios, each used in a different situation with a different audience. A simple four-step process provides you with an easy and complete the process of building your portfolio. The book closes with specific information, questions, and suggestions for creating each type of portfolio and presenting it to the unique audience for which it is intended. ethics and critical thinking sections, a running glossary, chapter objectives, end-of-chapter reviews, and references to help students stay engaged with the material and understand key concepts and terms. In addition, the web study guide (WSG) contains multiple interactive learning experiences that assist students in retaining the information. Each chapter of the text includes several cross-references to the WSG, allowing students to take advantage of the following features:

- Professional profile activities encourage students to test their expectations of the challenges that sport industry professionals face on a daily basis.
- Job announcement activities demonstrate the skills that prospective employers seek in particular sport settings.
- Web searches point students to the vast amount of information available online.
- Portfolio activities help students reflect on questions related to the critical thinking and ethics sections of each chapter.

Upon completion of

the activities, students will have constructed a portfolio of their reflections on issues they might face as future sport management professionals . • Learning in Action activities help students understand and apply the concepts covered in each chapter. With 20 chapters written by 44 expert contributors, Contemporary Sport

Management, Fifth Edition, begins with an overview of the field and historical aspects of the industry. Next, the attributes of effective and professional sport managers and the relevance of managerial and leadership concepts applied to sport management are discussed. In part II, students learn about the major

settings in which sport management professionals work today, including professional and amateur sport management sites, sport management agencies, and sport tourism venues. Part III offers information on key functional areas of sport management, such as marketing, communication, finance and economics, and facility and event management.

**What Color Is Your Parachute? for Teens, Third Edition** Policy Press

This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). This

book highlights the way in which contemporary forms of governance, policy and politics have been reframed by women 'working the spaces of power'. It shows how they took activist commitments into their working lives, in the process negotiating the terrain of neoliberal governance. Their work generated new political movements, community initiatives, public policies, organizational logics and

forms of 'knowledge work'. Newman draws on over 50 interviews with women from four generations to interrogate, develop and challenge existing approaches to understanding social and political change. In a postscript she traces ways in which the analysis might 'speak to the present' and offer resources for contemporary politics and practice. *Expanding Opportunities for Job Creation* Routledge

Vocational guidance for young adults includes creating a personality profile, assessing the rewards and sacrifices of varying careers, and finding the most informative resources. *Work and Organizational Psychology* Elsevier Health Sciences Improvements in education and economic expansion in the 1950s ensured a range of school-leaving employment opportunities. Yet girls'

full acceptance as adult women was still confirmed by marriage and motherhood rather than employment. This book examines the gendered nature of 'career'. Using both written sources and oral history it enters the theoretical debate over the significance of gender by considering the relationship between individual 'women' and the dominant representation of 'Woman'. *Resources in Vocational Education*
