Este livro surgiu a partir das discussões realizadas na disciplina "Cartografia no Ensino de Geografia", com alunos de graduação em Geografia da UFPA, no ano de 2013, e também em de resultados obtidos com a execução do projeto "A cartografia em sala de aula: capacitação de professores da rede pública de ensino no uso da cartografia e de geotecnologias", financiado pela Pró-Reitoria de Extensão da UFPA. Notamos durante a realização das atividades da disciplina e do projeto que há uma necessidade significativa de referências bibliográficas sobre o uso da cartografia na prática de ensino-aprendizagem, que aborde as novas tecnologias da cartografia que podem ser aplicadas em sala de aula, como forma de subsidiar o trabalho docente e tornar as aulas mais atrativas. Assim, reunimos uma série de artigos que, além do mapa, apresentam novas formas de ensino, que complementem a aula expositiva de geografia.
