The irresistibly
compelling **BOOK TWO**
in the long awaited
**PENRYN AND THE
END OF DAYS** series.
It is **THE** book we are
all waiting with bated
breath to read... In this
sequel to the
bestselling fantasy
thriller, *Angelfall*, the
survivors of the angel
apocalypse begin to
scrape back together
what's left of the

modern world. When a
group of people capture
Penryn's sister Paige,
thinking she's a
monster, the situation
ends in a massacre.
Paige disappears.
Humans are terrified.
Mom is heartbroken.
Penryn drives through
the streets of San
Francisco looking for
Paige. Why are the
streets so empty?
Where is everybody?
Her search leads her
into the heart of the
angels' secret plans,
where she catches a
glimpse of their
motivations, and learns
the horrifying extent to
which the angels are
willing to go.
Meanwhile, Raffe hunts
for his wings. Without
them, he can't rejoin the

angels, can't take his
rightful place as one of
their leaders. When
faced with recapturing
his wings or helping
Penryn survive, which
will he choose?

It's rule breaker Emily Foster's
birthday, and like everyone at
The Jungle Room, she just
wants to get some action.
Unfortunately, she stumbles
on the wrong kind, witnessing
a mob hit. To protect her,
she's entered into the Witness
Protection Program with by-
the-book Special Agent Jake
Ward as her chaperone. When
the location of their safe house
is compromised, Jake stashes
Emily deep in the Texas
backwoods. The city-girl might
be safe from the Mafia, but
she has to contend with a
psychotic rooster, a
narcoleptic dog, crazy
cowboys, and the danger of
losing her heart to the one
man she can't have. Jake's as

hot as he is infuriating, and she can't help but push all his buttons to loosen him up. Their mutual, sizzling sexual attraction poses a dilemma: Jake's determined to keep her safe and out of the wrong hands; she's determined to get into the right ones—his. Each book in the Tangled in Texas series is **STANDALONE**: * Rules of Protection * Playing With Fire * Law of Attraction
 Cruising World Springer Science & Business Media
 Mankind is using a greater variety of metals in greater quantities than ever before. As a result there is increasing global concern over the long-term availability of secure and adequate supplies of the metals needed by society. Critical metals, which are those of growing economic importance that might be susceptible to future scarcity, are a particular worry. For many of these we have little information on how they are concentrated in the Earth's crust, how to extract them from their ores, and how to use, recycle and dispose of them effectively and safely. Published with the British Geological Survey, the Critical Metals Handbook brings together a wealth of knowledge on critical metals and provides a foundation for improving the future security and sustainability of critical metal supplies. Written by international experts, it provides a unique source of authoritative information on diverse aspects of the critical

metals, including geology, deposits, processing, applications, recycling, environmental issues and markets. It is aimed at a broad non-specialist audience, including professionals and academics working in the exploration and mining sectors, in mining finance and investment, and in mineral processing and manufacturing. It will also be a valuable reference for policy makers concerned with resource management, land-use planning, eco-efficiency, recycling and related fields.
Cruising World John Wiley & Sons
 Offering thorough coverage of atomic layer deposition (ALD), this book moves from basic chemistry of ALD and modeling of processes to examine ALD in memory, logic devices and machines. Reviews history, operating principles and ALD processes for each device.
Cruising World
 A non-fiction account of the human experience of light in theology, philosophy, physics, medicine, and near-death experiences. Light, the foundational stuff of all that exists, an elusive, pervasive something and someone calling each of us into life.
