**World Civilizations** Longman  
Publishing Group

One of the earliest great stories of English literature after *Beowulf*, *Sir Gawain* is the strange tale of a green knight on a green horse, who rudely interrupts King Arthur's Round Table festivities one Yuletide, challenging the knights to a wager. Simon Armitage, one of Britain's leading poets, has produced an inventive and groundbreaking translation that "helps liberate *Gawain* from academia" (*Sunday Telegraph*). **Studyguide for Western Civilization** Zondervan With 83 additional outline and four-color maps, *World Civilizations: The Global Experience, Fifth Edition, Atlas Edition*, helps students with geography, one of the most difficult aspects of World history courses for many. The maps are

accompanied by review questions that call on students to identify important geographical areas and think critically about the connection between geography and historical events. The maps are on perforated pages and are organized by chapter so that they can be assigned easily and collected. The primary goal of *World Civilizations* is to present a truly global history—since the development of agriculture and herding to the present. Using a unique periodization, this book divides the main periods of human history according to changes in the nature and extent of global contacts. This global world history text emphasizes the major stages in the interactions among different peoples and societies, while also assessing the development of major societies. Presenting social and cultural as well as political and economic aspects, the book examines key civilizations in world history. *World Civilizations* balances this discussion of independent developments in the world's major civilizations with comparative analysis of the results of global contact.

"This is History Book. It explored the grand scheme of world history as a product of real-life human beings pursuing their individual and collective interests. It also offered a global perspective on the past by focusing on both the distinctive characteristics of individual societies and the connections that have linked the fortunes of different societies. It has combined a clear chronological framework with the twin themes of traditions and encounters, which help to make the unwieldy story of world history both more manageable and more engaging. From the beginning, Traditions & Encounters offered an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times"--

*Guns, Germs, and Steel: The Fates of Human Societies* Bloomsbury

The new edition of a milestone work on the global history of technology. This milestone history of technology, first published in 1990 and now revised and expanded in light of recent research, broke new ground by taking a global view, avoiding the conventional Eurocentric perspective and placing the development of technology squarely in the context of a "world civilization." Case studies include "technological dialogues" between China and West Asia in the eleventh century, medieval African states and the Islamic world, and the United States and Japan post-1950. It examines railway empires through the examples of Russia and Japan and explores current synergies of innovation in energy supply and smartphone technology through African cases. The book uses the term "technological dialogue" to challenges the top-down concept of "technology transfer," showing instead that technologies are typically modified to fit local needs and conditions, often triggering further innovation. The authors trace these encounters and exchanges over a thousand years, examining changes in such technologies as agriculture, firearms, printing, electricity, and railroads. A new chapter brings the narrative into the twenty-first century, discussing technological developments including petrochemicals, aerospace, and digitalization from often unexpected global viewpoints and asking what new kind of industrial revolution is needed to meet the challenges of the Anthropocene.

A History of Western Society Since 1300

Longman Publishing Group

With The Outline of History Wells started a craze that lasted throughout the 1920s for copycat outlines on every conceivable subject. Coming right after the carnage of World War I, the Outline was neither unduly pessimistic and cynical about the human condition nor Pollyannaish about humanity's future. Instead, it offered an account of the development of the world's civilizations up to the present, showing its readers that an enlightened future depended on a clear, unprejudiced view of the past.

**Perspective on the Past** Simon and Schuster

Do you know how we got to here? In "Spinning World History," Eric Burnett takes you through all the major tales, traditions and turning points of world history - not just European history, but WORLD history. You'll figure out real quick that the West might have had some crowning moments, but for the whole of human history, it's been the Persians, the Indians, the Chinese, the Muslims or some horse peoples from the steppe that have truly turned us into the clever little creatures we are today. And when most world history books fade off once the Cold War comes to a close, this sometimes cheekily-written tome just gets going. Updated to include contemporary debates over topics such as Brexit, the rise of ISIS, claims to the South China Sea, the mounting refugee crisis and the controversial presidency of Donald Trump, this second edition finishes with a distinctively comprehensive look at the 21st century challenges facing the nine major regions of today's world - Africa, Latin America, Japan, China, the Middle East, India, Russia, Europe and the United States.

A plane crashes on a desert island and the only survivors, a group of schoolboys, assemble on the beach and wait to be rescued. By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys'

delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. First published in 1954, Lord of the Flies is one of the most celebrated and widely read of modern classics. Now fully revised and updated, this educational edition includes chapter summaries, comprehension questions, discussion points, classroom activities, a biographical profile of Golding, historical context relevant to the novel and an essay on Lord of the Flies by William Golding entitled 'Fable'. Aimed at Key Stage 3 and 4 students, it also includes a section on literary theory for advanced or A-level students. The educational edition encourages original and independent thinking while guiding the student through the text - ideal for use in the classroom and at home.

basic criteria: a geographical rebalancing among major civilizational areas, an increase in the intensity and extent of contact across civilizations (or, in the case of the earliest period, crossregional contact), and the emergence of new and roughly parallel developments in many major civilizations. Based on "comparative work and focuses on global processes," this text helps students see the history of the world as one based on multiple disciplines. - Publisher.

### **World Civilizations** Macmillan Higher Education

**NATIONAL BESTSELLER** • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. "It may be nonfiction, but *Into the Wild* is a mystery of the highest order." —Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and,

unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

*Civilization* Arkose Press

"I've been thinking a lot about Cadillac Desert in the past few weeks, as the rain fell and fell and kept falling over California, much of which, despite the pouring heavens, seems likely to remain in the grip of a severe drought. Reisner anticipated this moment. He worried that the West's success with irrigation could be a mirage—that it took water for granted and didn't appreciate the precariousness of our capacity to control it." – Farhad Manjoo, *The New York Times*, January 20, 2023  
"The definitive work on the West's water crisis." --Newsweek The story of the

American West is the story of a relentless quest for a precious resource: water. It is a tale of rivers diverted and dammed, of political corruption and intrigue, of billion-dollar battles over water rights, of ecological and economic disaster. In his landmark book, *Cadillac Desert*, Marc Reisner writes of the earliest settlers, lured by the promise of paradise, and of the ruthless tactics employed by Los Angeles politicians and business interests to ensure the city's growth. He documents the bitter rivalry between two government giants, the Bureau of Reclamation and the U.S. Army Corps of Engineers, in the competition to transform the West. Based on more than a decade of research, *Cadillac Desert* is a stunning expose and a dramatic, intriguing history of the creation of an Eden—an Eden that may only be a mirage. This edition includes a new postscript by Lawrie Mott, a former staff scientist at the Natural Resources Defense Council, that updates Western water issues over the last two decades, including the long-term impact of climate change and how the region can prepare for the future.
