Gary Fuller's entertaining and engaging guide enhances geographic know-how with good, old-fashioned fun, using trivia to open up new worlds of knowledge for all readers. Often dismissed as unimportant, trivia here highlights issues that are far from trivial, pondering, for example, what peaceful country requires citizens to keep guns in their homes? what continent contains at least 75 percent of the world's fresh water? and why aren't New York, Los Angeles, Chicago, and Philadelphia the capitals of their respective states? An inveterate traveler and geographer extraordinaire, Fuller provides extensive background, clear illustrations, and thorough explanations for each intriguing question, carefully grounding the text in practical geographic concepts. Both enjoyable and enlightening, this book challenges today's global generation to truly get to know their world.

World Geography Resource Book Xlibris Corporation

Supplement your social studies curriculum with 180 days of daily geography practice! This essential classroom resource provides teachers with weekly geography units that build students' geography knowledge, and are easy to incorporate into the classroom. In a world that is becoming more connected and globalized, 21st century students must have the skills necessary to understand their world and how geography affects them and others. Students will develop their map and spatial skills, learn how to answer text- and photo-dependent questions, and study the 5 themes of geography. Each week covers a particular topic and introduces students to a new place or type of map. The first two weeks consist of a mini-unit that focuses entirely on map skills. For additional units, students will study various places, and how culture and geography are related. With a focus on North American regions, students will explore various types of maps including physical maps, political maps, topographic maps, thematic maps, climate maps, and various topics including

scale, legends, cardinal directions, latitude and longitude, and more. Aligned to state standards and National Geography Standards, this resource includes digital materials.
