The #1 bestselling trivia collection with bizarre facts to entertain you for hours, from the creator of YouTube's RealLifeLore. Where can I move to so that I'm never tempted by McDonald's again? How far into the Pacific does Trump's wall stretch? If Plato came back to life, what would he think of modern democracy? Why do all empires fail? Who decides what countries are allowed to participate in the Olympics? What makes Finland so great? When you take the most absurd parts of history, science, economics, and geography, you end up with a pretty confusing picture of humanity. Why do we have borders, what's the furthest you can get from the ocean,

how do you qualify as a country, and why did Vikings wear those silly helmets? These are just a few of the strange questions that bounce around the head of YouTube sensation Joseph Pimenti, aka RealLifeLore. In his debut book, Pimenti explores the nonsensical humor of the universe with in-depth analysis of empires, economies, and ecosystems as he helps answer the ridiculous. Why, you ask? Because someone has to. Using line drawings, graphs, and charts, Pimenti not only details the absurd—he also provides explanations on why things are . . . and why they aren't.

students to

appreciate the diversity of people, places, and cultures, and understand the role people play in shaping our world. The goals of this edition are to provide geographic context to global, regional, national, and local issues and to teach students to think geographically and critically about these issues. Human Geography features beautifully designed maps, dozens of vibrant photographs taken by the author team, and author and guest field notes that help students see how geographers

read cultural landscapes and use fieldwork to understand places. Fouberg's Human Geography, 12th Edition, now integrates Threshold Concepts to help students develop their ability to think geographically. Once they learn and apply one of these concepts in the context of a given place, students integrate it into their thinking and can draw from it as they learn new material and explore other places.
