geography The study of the physical features of the earth.

Includes study of regional formations and their relation to humans. latitude lines

Imaginary lines running horizontally around the globe. Also called parallels, latitude lines are equidistant from each other. Each degree of latitude is about 69 miles (110 km) apart.

Overview Present a physical-cultural study of the earth and mankind in one semester with World Geography in Christian Perspective. This textbook travels all over the globe with over 250 photographs to exhibit many different cultures and geographical features.
