'Project Cheers is a story of brilliant organization and endeavor by three men dedicated to an idea which many thought crazy. That idea was a fantastically fast twin hulled craft

called Cheers, designed specifically by Dick Newick to win the Single-handed Transatlantic Race in 1968.' This is the second edition of this historically significant sailing classic since its first publishing in 1969. A website; <http://www.cheersdicknewick.wordpress.com> is ever developing to compliment the book. Photos, links, updates, bio's, and eventually video, complement the story.

An Object of Seduction explores the early modern trans-Pacific export

of Chinese silk to New Spain. It argues that the increasing demand for silk contributed to the parallel development of silk fashion and sericulture in China and New Spain, and also created conflicts on imperial regulations about foreign trade and hierarchical systems.

The Ascent of Money
 Bloomsbury Publishing
 This volume considers the confluence of World History and historical materialism, with the following guiding question in mind: given developments in the field of historical materialism concerned with the historical intersection of race, gender, labour, and class, why is it that within the field of World History, historical materialism has been marginalized, precisely as World History orients toward transnational socio-cultural phenomenon, micro-studies, or global histories of networks? Answering this question requires thinking, in an inter-related manner, about both the development of World History as a discipline, and the place of economic determinism in materialism. This book takes the position that historical materialism (as applied to the field of World History) needs to be more open to the methodological diversity of the materialist tradition and to refuse narrowly deterministic frameworks that have led to marginalization of materialist cultural analysis in studies of global capitalism. At the same time, World History needs to be more self-critical of the methodological diversity it has welcomed through

a largely
inclusionary
framework that
allows the material
to be considered
separately from
cultural, social,
and intellectual
dimensions of
global processes.

This volume suggests a new way of doing global history.

Instead of offering a sweeping and generalizing overview of the past, we propose a 'micro-spatial' approach,

combining micro-history with the concept of space. A focus on primary sources and

awareness of the historical discontinuities and

unevennesses characterizes the global history that emerges

here. We use labour as our

lens in this volume. The resulting micro-spatial history of labour addresses the management and recruitment of labour, its voluntary and coerced spatial mobility, its political

perception and representation and the workers' own agency and social networks.

The individual

chapters are written by contributors

whose expertise covers the late

medieval Eastern Mediterranean to present-day

Sierra Leone, through early

modern China and Italy, eighteenth-century Cuba and the Malvinas /Falklands, the journeys of a missionary between India and Brazil and those of Christian captives across the Ottoman empire and Spain. The result is a highly readable volume that addresses key theoretical and methodological questions in historiography. Chapter 7 is open access under a CC BY 4.0 license via link.springer.com

The Material of World History

Routledge

We Fought the Road is the story of the building of the Alaska-Canada Highway during World War II. More than one third of the 10,607 builders were black; thought to be incapable of performing on a war front by many of their white commanding officers. Their task--which required punching through wilderness on a route blocked by the Rocky Mountains and deadly permafrost during the worst winter on record--has been likened to the building of the Panama Canal. Unlike most

accounts that focus on the road's military planners, We Fought the Road is boots-on-the-ground and often personal, based in part on letters from the "Three Cent Romance," the successful courtship via mail discovered in the authors' family papers *Turkey and the Soviet Union During World War II* Simon and Schuster "Anarchy in the Heartland" is the true story about the world's first three train robberies that occurred just after the Civil War in the Midwest. These bold robberies not only

stunned a war-weary nation, they resulted in horrific violence against suspected gang members by dozens, if not hundreds, of law-abiding citizens. Their gruesome retribution shocked the civilized world far more than the never-before-seen train robberies. As a direct result, a diplomatic incident with Canada and Britain unfolded in Washington, DC. The tragic events of 1868 were suppressed for years due to shame and fear of prosecution. "Anarchy in the Heartland" not only examines the

historical record, but the widespread hearsay and rumors that surrounded the area's wealthy business leaders-turned vigilantes. For the first time, discover the breakdown of society that few wanted to publicize; including the United States Government. *Jerusalem* Springer First published in 1992. This volume includes reports, papers and discussion from a September 1990 educational research workshop on textbook analysis in history and social studies. Some 20 European

countries are represented. *Memories of Bullhead City* A David Distler Examines the history and purpose of political rituals, discusses examples from Aztec cannibal rites to presidential inauguration, and argues that the use of ritual determines the success of political groups. "On June 6, 1944, Allied forces embarked on the largest amphibious invasion in history, a day now know as D-Day. Amongst the more than 160,000 soldiers on board over 5000 armored vessels were surgeons, doctors, and medics who

would tend to the wounded, valiantly attempting to bring their soldiers home alive.

Goodman's latest novel is a gripping, tension-filled look inside the lives of the men and women who gallantly served the Allied forces during the final years of World War II."--P. [4] of cover.

"Sundquist's careful, thoughtful study unearths new and fascinating evidence of the rhetorical traditions in King's speech."—Drew D. Hansen, author of *The Dream: Martin*

Luther King, Jr., and the speech, an exultant blend of grand poetry and powerful elocution, perfectly expressed the story of African American freedom. This book is the first to set King's speech within the cultural and rhetorical traditions on which the civil rights leader drew in crafting his oratory, as well as its essential historical contexts, from the early days of the republic through present-day Supreme Court rulings. At a time when the meaning of the speech has been obscured by its appropriation for every conceivable cause, Sundquist clarifies the transformative power of King's "Second Emancipation Proclamation" and its continuing relevance for contemporary arguments about equality. "The ['I Have a Dream'] speech and all that surrounds it—background and consequences—are brought magnificently to life . . . In this book he gives us drama and emotion, a powerful sense of history combined with illuminating scholarship."—The New York Times Book Review (Editor's Choice)
