Presents a history and analysis of the Korean War, focusing on the contributions of the United Nations, diplomacy of the conflict, and its role in the Cold War.

Visions of the End of the Cold War in Europe, 1945-1990 John Wiley & Sons

The definitive history of the Cold War and its impact around the world We tend to think of the Cold War as a bounded conflict: a clash of two superpowers, the United States and the Soviet Union, born out of the ashes of World War II and coming to a dramatic end with the collapse of the Soviet Union. But in this major new work, Bancroft Prize-winning scholar Odd Arne Westad argues that the Cold War must be understood as a global ideological confrontation, with early roots in the Industrial Revolution and ongoing repercussions around the world. In *The Cold War*, Westad offers a new perspective on a century when great power rivalry and ideological battle transformed every corner of our globe. From Soweto to Hollywood, Hanoi, and Hamburg, young men and women felt they were fighting for the future of the world. The Cold War may have begun on the perimeters of Europe, but it had its deepest reverberations in Asia, Africa, and the Middle East, where nearly every community had to choose sides. And these choices continue to define economies and regimes across the world. Today, many regions are plagued with environmental threats, social divides, and ethnic conflicts that stem from this era. Its ideologies influence China, Russia, and the United States; Iraq and Afghanistan have been destroyed by the faith in purely military solutions that emerged from the Cold War. Stunning in its breadth and revelatory in its perspective, this book expands our understanding of the Cold War both geographically and chronologically and offers an engaging new history of how today's world was created.

Restricted Data Berghahn Books

In this new edition of his classic 1970 memoir about the notorious U-2 incident, pilot Francis Gary Powers reveals the full story of what actually happened in the most sensational espionage case in Cold War history. After surviving the shoot-down of his reconnaissance plane and his capture on May 1, 1960, Powers endured sixty-one days of rigorous interrogation by the KGB, a public trial, a conviction for espionage, and the start of a ten-year sentence. After nearly two years, the U.S. government obtained his release from prison in a dramatic exchange for convicted Soviet spy Rudolph Abel. The narrative is a tremendously exciting suspense story about a man who was labeled a traitor by many of his countrymen but who emerged a Cold War hero.

Globalization: Technological and economic changes, environmental challenges, and the future of global relations. Conclusion - Chapter 22. Reflecting on World History: Recap major themes, lessons learned, and encourage further study of history. Appendices - Chapter 23. Glossary of Historical Terms: Definitions and explanations of key historical terms and concepts. - Chapter 24. Recommended Reading and Resources: Books, articles, websites, and other resources for further reading and research. - Chapter 25. Historical Timelines: Chronological timelines of significant historical events covered in the book. - Chapter 26. Key Historical Documents: Excerpts and analyses of important historical documents and texts. If you want to understand the events that have shaped our world, engage with HowExpert Guide to World History and learn from the past to shape a better future. HowExpert publishes how to guides on all topics from A to Z.

World History Pluto Press (UK)

The Cold War was not only about the imperial ambitions of the super powers, their military strategies, and antagonistic ideologies. It was also about conflicting worldviews and their correlates in the daily life of the societies involved. The term "Cold War Culture" is often used in a broad sense to describe media influences, social practices, and symbolic representations as they shape, and are shaped by, international relations. Yet, it remains in question whether – or to what extent – the Cold War Culture model can be applied to European societies, both in the East and the West. While every European country had to adapt to the constraints imposed by the Cold War, individual development was affected by specific conditions as detailed in these chapters. This volume offers an important contribution to the international debate on this issue of the Cold War impact on everyday life by providing a better understanding of its history and legacy in Eastern and Western Europe.

A People's History of the United States

This comprehensive study of China's Cold War experience reveals the crucial role Beijing played in shaping the orientation of the global Cold War and the confrontation between the United States and the Soviet Union. The success of China's Communist revolution in 1949 set the stage, Chen says. The Korean War, the Taiwan Strait crises, and the Vietnam War--all of which involved China as a central actor--represented the only major "hot" conflicts during the Cold War period, making East Asia the main battlefield of the Cold War, while creating conditions to prevent the two superpowers from engaging in a direct military showdown. Beijing's split with Moscow and rapprochement with Washington fundamentally transformed the international balance of power, argues Chen, eventually leading to the end of the Cold War with the collapse of the Soviet Empire and the decline of international communism. Based on sources that include recently declassified Chinese documents, the book offers pathbreaking insights into the course and outcome of the Cold War.

The End of the Cold War: 1985-1991 Oxford University Press

In keeping with the tenets of socialist internationalism, the political culture of the German Democratic Republic strongly emphasized solidarity with the non-white world: children sent telegrams to Angela Davis in prison, workers made contributions from their wages to relief efforts in Vietnam

and Angola, and the deaths of Patrice Lumumba, Ho Chi Minh, and Martin Luther King, Jr. inspired public memorials. Despite their prominence, however, scholars have rarely examined such displays in detail. Through a series of illuminating historical investigations, this volume deploys archival research, ethnography, and a variety of other interdisciplinary tools to explore the rhetoric and reality of East German internationalism.

U.S. History Harvard University Press

Very Short Introductions: Brilliant, Sharp, Inspiring The Cold War dominated international life from the end of World War II to the fall of the Berlin Wall in 1989. But how did the conflict begin? Why did it move from its initial origins in Postwar Europe to encompass virtually every corner of the globe? And why, after lasting so long, did the war end so suddenly and unexpectedly? Robert McMahon considers these questions and more, as well as looking at the legacy of the Cold War and its impact on international relations today. *The Cold War: A Very Short Introduction* is a truly international history, not just of the Soviet-American struggle at its heart, but also of the waves of decolonization, revolutionary nationalism, and state formation that swept the non-Western world in the wake of World War II. McMahon places the 'Hot Wars' that cost millions of lives in Korea, Vietnam, and elsewhere within the larger framework of global superpower competition. He shows how the United States and the Soviet Union both became empires over the course of the Cold War, and argues that perceived security needs and fears shaped U.S. and Soviet decisions from the beginning--far more, in fact, than did their economic and territorial ambitions. He unpacks how these needs and fears were conditioned by the divergent cultures, ideologies, and historical experiences of the two principal contestants and their allies. Covering the years 1945-1990, this second edition uses recent scholarship and newly available documents to offer a fuller analysis of the Vietnam War, the changing global politics of the 1970s, and the end of the Cold War. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

A People's History of Modern Europe Springer

Exploring the visions of the end of the Cold War that have been put forth since its inception until its actual ending, this volume brings to the fore the reflections, programmes, and strategies that were intended to call into question the bipolar system and replace it with alternative approaches or concepts. These visions were associated not only with prominent individuals, organized groups and civil societies, but were also connected to specific historical processes or events. They ranged from actual, thoroughly conceived programmes, to more blurred, utopian aspirations -- or simply the belief that the Cold War had already, in effect, come to an end. Such visions reveal much about the contexts in which they were developed and shed light on crucial moments and phases of the Cold War.

Mao's China and the Cold War Harper Collins

Using their thematic and regional expertise, four prominent authors have produced an authoritative yet accessible account of the history of international relations in the last century, covering events in Europe, Asia, the Middle East, Africa and the Americas. *America's Cold War* Cambridge University Press

The Cold War shaped the world we live in today - its politics, economics, and military affairs. This book shows how the globalization of the Cold War during the last century created the foundations for most of the key conflicts we see today, including the War on Terror. It focuses on how the Third World policies of the two twentieth-century superpowers - the United States and the Soviet Union - gave rise to resentments and resistance that in the end helped topple one superpower and still seriously challenge the other. Ranging from China to Indonesia, Iran, Ethiopia, Angola, Cuba, and Nicaragua, it provides a truly global perspective on the Cold War. And by exploring both the development of interventionist ideologies and the revolutionary movements that confronted interventions, the book links the past with the present in ways that no other major work on the Cold War era has succeeded in doing.

The Cold War: A Very Short Introduction PublicAffairs

The postwar period is no longer current affairs but is becoming the recent past. As such, it is increasingly attracting the attentions of historians. Whilst the Cold War has long been a mainstay of political science and contemporary history, recent research approaches postwar Europe in many different ways, all of which are represented in the 35 chapters of this book. As well as diplomatic, political, institutional, economic, and social history, the *The Oxford Handbook of Postwar European History* contains chapters which approach the past through the lenses of gender, espionage, art and architecture, technology, agriculture, heritage, postcolonialism, memory, and generational change, and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy. The Handbook covers all of Europe, with a notable focus on Eastern Europe. Including subjects as diverse as the meaning of 'Europe' and European identity, southern Europe after dictatorship, the cultural meanings of the bomb, the 1968 student uprisings, immigration, Americanization, welfare, leisure, decolonization, the Wars of Yugoslav Succession, and coming to terms with the Nazi past, the thirty five essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework. Readers will find self-contained, state-of-the-art analyses of major subjects, each written by acknowledged experts, as well as stimulating and novel approaches to newer topics. Combining empirical rigour and adventurous conceptual analysis, this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe. *Overthrow* Princeton University Press

From the monarchical terror of the Middle Ages to the mangled Europe of the twenty-first century, *A People's History of Modern Europe* tracks the history of the continent through the deeds of those whom mainstream history tries to forget. Europe provided the perfect conditions for a great number of political revolutions from below. The German peasant wars of Thomas Muntzer, the bourgeois revolutions of the eighteenth century, the rise of the industrial worker in England, the turbulent journey of the Russian Soviets, the role of the European working class throughout the Cold War, student protests in 1968 and through to the present day, when we continue to fight to forge an alternative to the barbaric economic system. With sections focusing on the role of women, this history sweeps away the tired platitudes of the privileged upon which our current understanding is based, and provides an opportunity to see our history differently.

Origins of the Cold War 1941-1949 McDougal Littell/Houghton Mifflin
Originally published in the midst of the cold war, *Is This Tomorrow* is a

classic example of red scare propaganda. The story envisions a scenario in the increasingly bipolar conflict and, in turn, were ensnared by it. which the Soviet Union orders American communists to overthrow the US Government. Charles Schulz contributed to the artwork throughout the issue. Reprinted here for the first time in 70 years.

The Oxford Handbook of the Cold War Courier Corporation

Covers the entire range of the history of U.S. foreign relations from the colonial period to the beginning of the 21st century. A Companion to U.S. Foreign Relations is an authoritative guide to past and present scholarship on the history of American diplomacy and foreign relations from its seventeenth century origins to the modern day. This two-volume reference work presents a collection of historiographical essays by prominent scholars. The essays explore three centuries of America's global interactions and the ways U.S. foreign policies have been analyzed and interpreted over time. Scholars offer fresh perspectives on the history of U.S. foreign relations; analyze the causes, influences, and consequences of major foreign policy decisions; and address contemporary debates surrounding the practice of American power. The Companion covers a wide variety of methodologies, integrating political, military, economic, social and cultural history to explore the ideas and events that shaped U.S. diplomacy and foreign relations and continue to influence national identity. The essays discuss topics such as the links between U.S. foreign relations and the study of ideology, race, gender, and religion; Native American history, expansion, and imperialism; industrialization and modernization; domestic and international politics; and the United States' role in decolonization, globalization, and the Cold War. A comprehensive approach to understanding the history, influences, and drivers of U.S. foreign relation, this indispensable resource: Examines significant foreign policy events and their subsequent interpretations Places key figures and policies in their historical, national, and international contexts Provides background on recent and current debates in U.S. foreign policy Explores the historiography and primary sources for each topic Covers the development of diverse themes and methodologies in histories of U.S. foreign policy Offering scholars, teachers, and students unmatched chronological breadth and analytical depth, *A Companion to U.S. Foreign Relations: Colonial Era to the Present* is an important contribution to scholarship on the history of America's interactions with the world.

On Guerrilla Warfare Oxford University Press, USA

The Oxford Handbook of Postwar European History HowExpert

This volume examines the origins and early years of the Cold War. In the first comprehensive reexamination of the period, a team of leading scholars shows how the conflict evolved from the geopolitical, ideological, economic and sociopolitical environments of the two world wars and interwar period, and discusses how markets, ideas and cultural interactions affected political discourse, diplomacy and strategy after World War II. The chapters focus not only on the United States and the Soviet Union, but also on critical regions such as Europe, the Balkans and East Asia. The authors consider the most influential statesmen of the era and address issues that mattered to people around the globe: food, nutrition and resource allocation; ethnicity, race and religion; science and technology; national autonomy, self-determination and sovereignty. In so doing, they illuminate how people worldwide shaped the evolution of

in the increasingly bipolar conflict and, in turn, were ensnared by it.

Postwar Cambridge University Press

Ever since its first publication in 1992, the New York Times bestselling *The End of History and the Last Man* has provoked controversy and debate. "Profoundly realistic and important...supremely timely and cogent...the first book to fully fathom the depth and range of the changes now sweeping through the world." -The Washington Post Book World Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

Cold War Cultures Macmillan

Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

Rigged Vintage

This book is open access under a CC BY 4.0 license. This book explores how the socially disputed period of the Cold War is remembered in today's history classroom. Applying a diverse set of methodological strategies, the authors map the dividing lines in and between memory cultures across the globe, paying special attention to the impact the crisis-driven age of our present has on images of the past. Authors analysing educational media point to ambivalence, vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies. Others focus on teachers and the history classroom, showing how unresolved political issues create tensions in history education. They render visible how teachers struggle to handle these challenges by pretending that what they do is 'just history'. The contributions to this book unveil how teachers, backgrounding the political inherent in all memory practices, often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach.
