This book traces the journeys of a stone across the world. From its remote point of origin in the city of Nishapur in eastern Iran, turquoise was traded through India, Central Asia, and the Near East, becoming an object of imperial exchange between the Safavid, Mughal, and Ottoman empires. Along this trail unfolds the story of turquoise--a phosphate of aluminum and copper formed in rocks below the surface of the earth--and its discovery and export as a global commodity. In the material culture and imperial regalia of early modern Islamic tributary empires moving from the steppe to the sown, turquoise was a sacred stone and a potent symbol of power projected in vivid color displays. From the empires of Islamic Eurasia, the turquoise trade reached Europe, where the stone was collected as an exotic object from the East. The Eurasian trade lasted into the nineteenth century, when the oldest mines in Iran collapsed and lost Aztec mines in the Americas reopened, unearthing more accessible sources of the stone to rival the Persian blue. Sky Blue Stone recounts the origins, trade, and circulation of a natural object in the context of the history of Islamic Eurasia and global encounters between empire and nature.

Emily Brontë's beloved novel Wuthering Heights has been adapted countless times for film and television over the decades.

Valérie V. Hazette offers here a historical and transnational study of those adaptations, presenting the afterlife of the book as a series of cultural journeys that focus as much on the readers, film-makers, and viewers as on the dramas themselves. Taking in the British silent film; French, Mexican, and Japanese versions; the British television serials; and more, this richly theoretical volume is the first comprehensive global analysis of the adaptation of Wuthering Heights for film and television.

NEW YORK TIMES BESTSELLER "Travels with George . . . is quintessential Philbrick—a lively, courageous, and masterful achievement." —The Boston Globe Does George Washington still matter? Bestselling author Nathaniel Philbrick argues for Washington's unique contribution to the forging of America by retracing his journey as a new president through all thirteen former colonies, which were now an unsure nation. Travels with George marks a new first-person voice for Philbrick, weaving history and personal reflection into a single narrative. When George Washington became president in 1789, the United States of America was still a loose and quarrelsome confederation and a tentative political experiment. Washington undertook a tour of the ex-colonies to talk to ordinary citizens about his new government, and to imbue in them the idea of being one thing—Americans. In the fall of 2018, Nathaniel Philbrick embarked on his own journey into what Washington called "the infant woody country" to see for himself what America had become in the 229 years since. Writing in a thoughtful first person about his own adventures with his wife, Melissa, and their dog, Dora, Philbrick follows Washington's presidential excursions: from Mount Vernon to the new capital in New York; a monthlong tour of Connecticut, Massachusetts, New Hampshire, and Rhode Island; a venture onto Long Island and eventually across Georgia, South Carolina, and North Carolina. The narrative moves smoothly between the eighteenth and twenty-first centuries as we see the country through both Washington's and Philbrick's eyes. Written at a moment when America's founding figures are under increasing scrutiny, Travels with George grapples bluntly and honestly with Washington's legacy as a man of the people, a reluctant president, and a plantation owner who held people in slavery. At historic houses and landmarks, Philbrick reports on the reinterpretations at work as he meets reenactors, tour guides, and other keepers of history's flame.

He paints a picture of eighteenth-century America as divided and fraught as it is today, and he comes to understand how Washington compelled, enticed, stood up to, and listened to the many different people he met along the way—and how his all-consuming belief in the union helped to forge a nation.

The eye sees only what the mind is prepared to comprehend. -- Henri Bergson Perception and Deception is a spirited, insightful, and timely exploration of cross-cultural miscommunication in an increasingly globalized, hyper-connected world. It offers an astonishing, intriguing, and sometimes tragic array of intercultural encounters that have gone wrong across the globe because of the limitations of our respective cultural lenses. The stories from over 70 countries (indexed by culture) are illuminated by the author's rich collection of international proverbs and sayings that reflect on the nature of perception, perspective, and "truth." In addition to these stories and reflections about cross-cultural misunderstandings, this expanded edition contains exercises that can be used as springboards for developing intercultural competence. At the end of each chapter there are questions and activities designed to develop and heighten cultural self-awareness and sensitivity to people from other cultural backgrounds. These activities are suitable for individuals, students, and groups of all backgrounds and professions. This edition's new chapter, "Globalization and its Disconnects: Convergence Without Context," focuses on spiraling cross-cultural mis-perceptions in the areas of religion, migration, and technology. Interactive intercultural activities help readers understand and develop useful strategies to cope with the disrupting cultural disconnects of globalization. Some of the newly added interactive activities are designed to be used in conjunction with Cultural Detective Online a reasonably priced subscription-based tool that allows 24/7 access to the nearly 70 packages that are part of the Cultural Detective(R) Series. The historic Raritan Bay stretches from Staten Island to Sandy Hook, including the beach communities of Monmouth County. With its proximity to New York City and Jersey shore attractions, the bay region has been the setting for compelling moments throughout American history. The native Lenapes harvested oysters and fished the waters along the bayshore generations before Dutch and English colonists reached their coasts. Local slave Titus Cornelius, or Colonel Tye, escaped from bondage and led Loyalist forces in raids to destabilize the area during the Revolutionary War. Steamships traversed the bay carrying hordes of vacationers from New York to newly established resorts along the "Riviera of New Jersey" in the early twentieth century. Climb aboard as author John Schneider takes readers on a historical journey across Raritan Bay.

Journey Across Time opens a window to life in South Asia, which has changed vastly since Susan Gillerman Boggs began living there as a diplomat's wife in 1985. In a captivating first-person narrative, Boggs takes the reader to remote places, many now closed to visitors. She describes experiences both exotic and hilarious, and adventures impossible to replicate. The author invites us to share the color and pageantry of festivals, religious rites, and parades of caparisoned elephants. She ventured into the Himalayas on perilous roads and was welcomed into a remote land of former headhunters. She dined with royalty and danced with a maharaja, conversed with Mother Teresa, met President Clinton, and appeared in a film starring Pierce Brosnan. She survived floods, political assassinations, and window-shattering bombs. She was bitten by a grouper in a coral lagoon, sneezed on by an elephant, and cornered in a cul-de-sac by angry bulls. Back on the home front, the author chronicles the daily joys and frustrations of diplomatic life with its cast of senior officials, Mughals, intellectuals, and colorful characters. With verve and self-deprecating humor, she describes the tribulations of managing a diplomatic household and orchestrating official events despite personal dramas, logistic challenges, and power outages. Join her in a truly remarkable Journey Across Time.
