World History - Patterns of Interaction Globe Fearon  
How partisan politics lead to the Civil War What brought about the Civil War? Leading historian Michael F. Holt convincingly offers a disturbingly contemporary answer: partisan politics. In this brilliant and succinct book, Holt distills a lifetime of scholarship to demonstrate that secession and war did not arise from two irreconcilable economies any more than from moral objections to slavery. Short-sighted politicians were to blame. Rarely looking beyond the next election, the two dominant political parties used the emotionally charged and largely

chimerical issue of slavery's extension westward to pursue reelection and settle political scores, all the while inexorably dragging the nation towards disunion. Despite the majority opinion (held in both the North and South) that slavery could never flourish in the areas that sparked the most contention from 1845 to 1861-the Mexican Cession, Oregon, and Kansas-politicians in Washington, especially members of Congress, realized the partisan value of the issue and acted on short-term political calculations with minimal regard for sectional comity. War was the result. Including select speeches by Lincoln and others, *The Fate of Their Country* openly challenges us to rethink a seminal moment in America's history.

The Prospect of Global History takes a new approach to the study of global history, seeking to apply it, rather than advocate it. The volume seeks perspectives on history from East Asian and Islamic sources as well as European ones, and insists on depth in historical analysis. The Prospect of Global History will speak to those interested in medieval and ancient history as well as modern history. Chapters range from historical sociology to economic history, from medieval to modern times, from European expansion to constitutional history, and from the United States across South Asia to China.
