World History in Documents Good Press
The one-year course in world history, popular in some quarters, does not seem to have made much headway. High school level courses on world-history are one of the many responses to the World Wars, yet said courses have never been recommended by a committee of national scope on which there were any historians. Opinion surveys among teachers and students indicate that no other part of the typical social studies program is more criticized than the tenth grade level one year elective world history course. These courses are increasing in number, textbooks are multiplying, and a few interesting experiments are being worked out--yet there is no general agreement on organization, scope, objectives, teaching strategies, or assessment in these courses. This document is a summary of historical and recent surveys on curricular trends in social studies with regard to world history, to help educators assess what impact they may have on the teaching of world history in the 1970s.

DOD Pam John Wiley & Sons
Herodotus, the great Greek historian, wrote this famous history of warfare between the Greeks and the Persians in a delightful style. Herodotus portrays the dispute as one between the forces of slavery on the one hand and freedom on the other. This work covers the rise of the Persian influence and a history of the Persian empire, a description and history of Egypt, and a long digression on the landscape and traditions of Scythia. Because of the comprehensiveness of this work, it was considered the founding work of history in Western literature. A must-have for history enthusiasts.

Studies in World History Volume 3 (Teacher Guide) Cengage Learning

Pamphlet - Dept. of the Army London ; New York : McGraw-Hill

Noted teachers and scholars William J. Duiker and Jackson J. Spielvogel present a balanced, highly readable overview of world history that explores common challenges and experiences that unite the human past and that identify the key global patterns over time. Thorough coverage of political, economic, social, religious, intellectual, cultural, and military history in Volume 2 has been integrated into a chronologically ordered synthesis to help students gain an appreciation and understanding of the distinctive character and development of individual cultures in society. This edition of WORLD HISTORY continues to take a global approach to world history, with an emphasis on analytical comparisons between and among cultures throughout history. This approach helps students' link events together in a broad comparative and global framework, thereby placing the contemporary world in a more meaningful historical context. World History, Culture, and Geography Simon and Schuster
The classic handbook on home schooling updated for a new generation of parents and students. Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education by doing it yourself The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educator Susan Wise Bauer outlines the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," when the building blocks of information are absorbed through memorization and rules; the middle school "logic stage," in which the student begins to think more analytically; and the high-school "rhetoric stage," where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child—whether full-time or as a supplement to classroom education—in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. A new optional Resource Recommendations Portal provides subscribers with curated lists of the best curricula for every grade level and learning style. Thousands of parents have already used the methods described in The Well-Trained Mind to create a truly superior education for children in their care. You do have control over what and how your child learns. The Well-Trained Mind will give you the tools you'll need to teach your child with confidence and success.

Global Connections: Volume 2, Since 1500 New Leaf Publishing Group

Ever since its first publication in 1992, The End of History and the Last Man has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, The End of History and the Last Man is a modern classic.

WORLD HISTORY, JOURNEYS Routledge
This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each unit contains references. (EH)

Curriculum Innovations in Changing Societies W. W. Norton & Company
This book discusses the discipline standards of History in Australian universities in order to help historians understand the Threshold Learning Outcomes and to assist in their practical application. It is divided into two sections: The first offers a scholarly exploration of contemporary issues in history teaching, while the second section discusses each of the Threshold Learning Outcomes and provides real-world examples of quality pedagogical practice. Although the book focuses on the discipline of history in Australia, other subjects and other countries are facing the same dilemmas. As such, it includes chapters that address the international context and bring an international perspective to the engagement with discipline standards. The innovation and leadership of this scholarly community represents a new stage in the transformation and renewal of history teaching.

Teaching World History: A Resource Book New Leaf Publishing Group

The first textbook to present world history via social history, drawing on social science methods and research. This interdisciplinary, comprehensive, and comparative textbook is authored by distinguished scholars and experienced teachers, and offers expert scholarship on global history that is ideal for undergraduate students. Volume 2 takes us from the early modern period to speculation about the world in 2050, visiting diverse civilizations, nation-states, ecologies, and people along the journey through time and place. The book pays particular attention to the ways in which ordinary people lived through the great changes of their times, and how everyday experience connects to great political events and the commercial exchanges of an interconnected world. With 75 maps, 65 illustrations, timelines, boxes, and primary source extracts, the book enables students to use historical material and social science methodologies to analyze the events of the past, present, and future.

While world history materials date back to prehistoric times, the field itself is relatively young. Indeed, when the first edition of Peter Stearns's best-selling World History in Documents was published in 1998, world history was poised for explosive growth, with the College Board approving the AP world history

curriculum in 2000, and the exam shortly thereafter. At the university level, survey world history courses are increasingly required for history majors, and graduate programs in world history are multiplying in the U.S. and overseas. World events have changed as rapidly as the field of world history itself, making the long-awaited second edition of World History in Documents especially timely. In addition to including a new preface, focusing on current trends in the field, Stearns has updated forty percent of the textbook, paying particular attention to global processes throughout history. The book also covers key events that have altered world history since the publication of the first edition, including terrorism, global consumerism, and environmental issues.
