For courses in Music Theory (a two-year sequence including sight singing and ear training) as well as separate Sight Singing courses. Using an abundance of meticulously organized melodies drawn from the literature of composed music and a wide

---

range of the world's folk music, Ottman provides the most engaging and comprehensive Sight Singing text on the market. Over fifty years ago, Robert W. Ottman set out to write a book that draws examples from the literature as opposed to being composed by the author. He proposed that students should work with "real" music as they study musical forms. The result was *Music for Sight Singing*. Not only is real music more enjoyable and interesting to sing than dry examples, but genuine repertoire naturally introduces a host of important musical considerations beyond pitch and rhythm (including dynamics, accents, articulations, slurs, repeat signs, and tempo markings). Several generations of teachers have also agreed that Ottman's ability to order his examples from the simple to the complex is another key to the book's long term success. Nancy Rogers, the book's new author, has added new vitality to the book, introducing exercises to develop creativity as well as to build basic skills.

*Steel Drums and Steelbands: A History* is a vivid account of the events that led to the "accidental" invention of the steel drum: the only acoustic musical instrument invented in the 20th century. Angela Smith walks readers through the evolution of the steel drum from an object of scorn and tool of violence to one of the most studied, performed, and appreciated musical instruments today. Smith explores the development of the modern steelband, from its roots in African slavery in early Trinidad to the vast array of experiments in technological innovation and to the current explosion of steelbands in

---

American schools. The book offers insights directly from major contributors of the steelband movement with sections devoted exclusively to pioneers and innovators. Drawing on seven years of research, repeated trips to the birthplace of the steel drum, Trinidad, and interviews with steelband pioneers, Smith takes readers far beyond the sunny associations of the steel drum with island vacations, cruise ships, and multiple encores of “Yellow Bird.” Digging deep into Trinidad’s history—a tale of indigenous extermination and African slavery, of French settlement and Spanish and British colonialism before mid-century independence—Smith weaves an unforgettable narrative of talking drums, kalinda stick fights, tamboo bamboo bands, iron bands, calypso, Carnival, and the U. S. military. Together, all played major roles in the evolution of today’s steelband and in the panman’s journey from renegade to hero in the steelband’s move from the panyards of Trinidad’s poorest neighborhoods to the world’s most prestigious concert halls. The reader will discover how an instrument created by teenage boys, descendants of African slaves, became a world musical phenomena. Steel Drums and Steelbands is the ideal introduction to the steel drum, steelbands, and their history. Experience Music Ashgate Publishing, Ltd. (Piano/Vocal/Guitar Songbook). Popular music has long understood that human rights, if attainable at all, involve a struggle without end. The right to imagine an individual will, the right to some form of self-determination and the right to self-legislation have long been at the forefront of popular music's approach to human rights. At a time of such uncertainty and confusion, with human

---

rights currently being violated all over the world, a new and sustained examination of cultural responses to such issues is warranted. In this respect music, which is always produced in a social context, is an extremely useful medium; in its immediacy music has a potency of expression that reaches far and wide.

#### Jazz Hal Leonard

The first biography of the seminal music group WAR whose many hits include "Spill the Wine," "All Day Music," "Why Can't We Be Friends?" "Slippin' into Darkness," "The Cisco Kid," and - of course - "Low Rider." They combined rock, funk, soul, R&B, jazz, and a strong Latin vibe in their music, they have been awarded two Platinum and

eight Gold records in their career. Their album "The World is a Ghetto" was the bestselling release of 1973 and was #444 on the list of "Rolling Stone's Top 500 Albums" list. This unauthorized book follows the group from their early incarnations when Harold Brown and Howard Scott met to form the Creators and then the Night Shift, to their partnership with former Animals lead singer Eric Burdon, to a highly successful career on their own with the core original lineup of Brown, Scott, Lee Oskar, Lonnie Jordan, B.B. Dickerson, Papa Dee Allen, and Charles Miller. The story also follows the band through their later, leaner years, the tragic deaths of two members, and the conflicts that led to a fissure and a split of performing entities that continues to this day. Featuring original interviews, archival research, and musical analysis

and commentary, "Slippin' Out of Darkness: The Story of WAR" tells the tale of one of the most unique bands in the history of Classic Rock-era music.
