"A gorgeous and thrilling paean to the ferocious power of women. The characters live, bleed, and roar."
"Laini Taylor, New York Times bestselling author A NEW YORK TIMES BESTSELLER • Winner of the British Fantasy Award for Best Fantasy Novel • Named One of the Best Books of the Year by NPR Books • Barnes and Noble • BookPage In the late 1800s, three sisters use witchcraft to change the course of history in this powerful novel of magic, family, and the suffragette movement. In 1893, there's no such thing as witches. There used to be, in the wild, dark days before the burnings began, but now witching is nothing but tidy charms and nursery rhymes. If the modern woman wants any measure of power, she must find it at the ballot box. But when the Eastwood sisters—James Juniper, Agnes Amaranth, and Beatrice Belladonna—join the suffragists of New Salem, they begin to pursue the forgotten words and ways that might turn the women's movement into the witch's movement. Stalked by shadows and sickness, hunted by forces who will not suffer a witch to vote?and perhaps not even to live?the sisters will need to delve into the oldest magics, draw new alliances, and heal the bond between them if they want to survive. There's no such thing as witches. But there will be. An homage to the indomitable power and persistence of women, *The Once and Future Witches* reimagines stories of revolution, motherhood, and women's suffrage—the lost ways are calling. Praise for *The Once and Future Witches*: "A glorious escape into a world where witchcraft has dwindled to a memory of

women's magic, and three wild, sundered sisters hold the key to bring it back...A tale that will sweep you away."?Yangsze Choo, New York Times bestselling author "This book is an amazing bit of spellcraft and resistance so needed in our times, and a reminder that secret words and ways can never be truly and properly lost, as long as there are tongues to speak them and ears to listen."?P. Djèlí Clark, author *The Black God's Drum* For more from Alix E. Harrow, check out *The Ten Thousand Doors of January*.

Goodreads Choice Finalist for Science Fiction A pizza-loving slacker becomes the host of an ancient alien—and a pawn in an ongoing alien war—in this “science fiction romp” full of wit and humor (Huffington Post) When out-of-shape IT technician Roen woke up and started hearing voices in his head, he naturally assumed he was losing it. He wasn't. He now has a passenger in his brain—an ancient alien life-form called Tao, whose race crash-landed on Earth before the first fish crawled out of the oceans. Now split into two opposing factions—the peace-loving, but under-represented Prophus, and the savage, powerful Genjix—the aliens have been in a state of civil war for centuries. Both sides are searching for a way off-planet, and the Genjix will sacrifice the entire human race, if that's what it takes. Meanwhile, Roen is having to train to be the ultimate secret agent. Like that's going to end up well.

Since Kate Beaton appeared on the comics scene in 2007 her cartoons have become fan favourites and gathered an enormous following, appearing in the *New Yorker*, *Harper* and the *LA Times*, to name but a few. Her website, *Hark! A Vagrant*, receives an average of 1.2 million hits a month, 500 thousand of them unique. Why? Because she's not just making silly jokes. She's making jokes about everything we learned in school, and more. Praised for their expression, intelligence and comic timing, her cartoons are best known for their wonderfully light touch on historical and literary topics. The jokes are a knowing look at history through a very modern perspective, written for every reader, and are a crusade against anyone with the idea that history is boring. It's pretty hard to argue with that when you're laughing your head off at a comic about Thucydides. They also cover whatever's on her mind that week - be it the perils of city living or the pop-cultural infiltration of *Sex and the City*, featuring an array of characters, from a mischievous pony, to reinvented superheroes, to a surly teen duo who could be the anti-Hardy-Boys. Perceptive, sharp and wonderfully irreverent, *Hark! A Vagrant* is as informative as it is hilarious, and a comic collection to treasure.

First contact did not bring advanced culture and wisdom, as the aliens were too strange, lacking even mouths or normal language. Face is an artificial intelligence created to understand and gain the adoration of all humans. She and her siblings control the robot named Socrates, using a crystal computer that seems too advanced to be made by human hands. She is learning and growing every second of every day, but the world and the humans on it are fragile. Can it survive her destiny?

Psychiatrist John Cunningham is secretly also "Jack Cannon", author of popular horror novels. Under hypnotic regression, John's patient Tony reveals a bizarre and horrifying tale of a "past life" lived on Tyneside in the 1950s, involving two schoolboys and a weird creature with paranormal powers lurking in caves beneath Tynemouth Castle. As John regresses Tony through earlier lives as far back as the 14th century it begins to seem that the local legend, captured in folksong, of a malevolent Lambton Worm may have had a basis in fact: that it was, in fact, the salamander of alchemical belief, summoned by an alchemist known as Raymond Lully, and possibly still locked below Tynemouth Castle And while John Cunningham is exploring Tony's multiple personalities, he begins to experience personality problems of his own, as Jack Cannon begins to assert his own individuality.
