You could

consider sacrificing yourself by jumping onto the tracks in front of trolley, but, because you are small and slender, you would be killed, and the trolley would still run over the five people, killing them all. Should you push the fat man? Would you push the fat man? (Again, I ask readers to try to answer these questions honestly before reading on). Would You Kill the Fat Man? | Princeton University Press

the Bridge Variation . The situation is the same as before: a runaway tram threatens to kill five people. A very heavy man is sitting on a wall on a bridge spanning the track. You can stop the train by pushing him off the bridge onto the track in front of the train. He will die, but the five will be saved. (You can't opt to ...

fat man? David Edmonds says he would. For all their moralising, or perhaps because of it, philosophers are a politically incorrect bunch. Here and there are flashes of the insight that made Edmonds' Wittgenstein's Poker (co-authored with John Eidinow) briefly light up the philosophical firmament – to the extent to which (to my irritation) I was obliged to have a book ... *Latest Celebrity News, Gossip & Photos | TV & Showbiz ...* Should You Kill the Fat Man? Preliminary Questions. This activity is a treatment of some of the issues thrown up by a

thought experiment called 'The Trolley Problem', which was first outlined by the philosopher Philippa Foot, and then developed by Judith Jarvis Thomson and others.
