Apply theory to practice

with the Clinical Cases textbook series! Clinical Cases: Nursing Care Studies is the perfect textbook for nursing students completing their Diploma. This nursing book offers a variety of case studies based on common real-life examples that you are likely to encounter in practice. Written by Margaret Webb and Ellie Kirov, Nursing Care Studies focusses on key nursing care topics, including: Vital Signs, Skin Integrity and Wound Care, Community-based Care, General Health Assessment, Medications and Palliative Care. Benefit from the logical structure of this nursing book, where each case study begins with an introduction of the presenting condition and associated symptoms. As

---

the scenario develops, more information is provided, such as the patient's condition, medications, tests and other important factors. Best of all, the conclusion of each case study emphasises patient outcomes and emphasises key points, providing you a great summary to reflect on. Make the most of Clinical Cases: Nursing Care Studies by using it in conjunction with Tabbner's Nursing Care: Theory and Practice, 6th Edition by Gabby Koutoukidis, Kate Stainton and Jodie Hughson as you progress through your Diploma of Nursing. Used together, these nursing textbooks provide a strong foundation for your knowledge of important themes and issues in

nursing care. Support your nursing education by purchasing the other great titles available in the Clinical Cases textbook series. Other titles in this series:
