An Instant New York Times Bestseller From the Pulitzer Prize-winning author of *The Looming Tower*—a riveting thriller and “all-too-convincing chronicle of science, espionage, action and speculation” (*The Wall Street Journal*) At an internment camp in Indonesia, forty-seven people are pronounced dead with acute hemorrhagic fever. When epidemiologist Henry Parsons travels there on behalf of the World Health Organization to investigate, what he finds will have staggering repercussions. Halfway across the globe, the deputy director of U.S. Homeland Security scrambles to mount a response to the rapidly spreading pandemic leapfrogging around the world, which she believes may be the result of an act of biowarfare. And a rogue experimenter in man-made diseases is preparing his own terrifying solution. As already-fraying global relations begin to

snap, the virus slashes across the United States, dismantling institutions and decimating the population. With his own wife and children facing diminishing odds of survival, Henry travels from Indonesia to Saudi Arabia to his home base at the CDC in Atlanta, searching for a cure and for the origins of this seemingly unknowable disease. *The End of October* is a one-of-a-kind thriller steeped in real-life political and scientific implications, filled with the insight that has been the hallmark of Wright’s acclaimed nonfiction and the full-tilt narrative suspense that only the best fiction can offer.

When I Was Puerto Rican Open Road Media

From the famed publisher and poet, author of the million-copy-selling collection *A Coney Island of the Mind*, his literary last will and testament -- part autobiography, part summing up, part Beat-inflected torrent of language and feeling, and all magical. "A volcanic explosion of personal memories, political rants, social commentary, environmental jeremiads and

cultural analysis all tangled together in one breathless sentence that would make James Joyce proud. . ." —Ron Charles, *The Washington Post* In this unapologetically unclassifiable work Lawrence Ferlinghetti lets loose an exhilarating rush of language to craft what might be termed a closing statement about his highly significant and productive 99 years on this planet. The "Little Boy" of the title is Ferlinghetti himself as a child, shuffled from his overburdened mother to his French aunt to foster childhood with a rich Bronxville family. Service in World War Two (including the D-Day landing), graduate work, and a scholar gypsy's vagabond life in Paris followed. These biographical reminiscences are interweaved with Allen Ginsberg-esque high energy bursts of raw emotion, rumination, reflection, reminiscence and prognostication on what we may face as a species on Planet Earth in the future. *Little Boy* is a magical font of literary lore with allusions galore, a final repository of hard-earned

and durable wisdom, a compositional high wire act without a net (or all that much punctuation) and just a gas and an inspiration to read.

The Liar's Bible Harper Collins

Shortlisted for the James Tait Black Prize An electrifying, revelatory new biography of D. H. Lawrence, with a focus on his difficult middle years "Never trust the teller," wrote D. H. Lawrence, "trust the tale." Everyone who knew him told stories about Lawrence, and Lawrence told stories about everyone he knew. He also told stories about himself, again and again: a pioneer of autofiction, no writer before Lawrence had made so permeable the border between life and literature. In *Burning Man: The Trials of D. H. Lawrence*, acclaimed biographer Frances Wilson tells a new story about the author, focusing on his decade of superhuman writing and travel between 1915, when *The Rainbow* was suppressed following an

obscenity trial, and 1925, when he was diagnosed with tuberculosis. Taking after Lawrence's own literary model, Dante, and adopting the structure of *The Divine Comedy*, *Burning Man* is a distinctly Lawrentian book, one that pursues Lawrence around the globe and reflects his life of wild allegory. Eschewing the confines of traditional biography, it offers a triptych of lesser-known episodes drawn from lesser-known sources, including tales of Lawrence as told by his friends in letters, memoirs, and diaries. Focusing on three turning points in Lawrence's pilgrimage (his crises in Cornwall, Italy, and New Mexico) and three central adversaries—his wife, Frieda; the writer Maurice Magnus; and his patron, Mabel Dodge Luhan—Wilson uncovers a lesser-known Lawrence, both as a writer and as a man. Strikingly original, superbly researched, and always revelatory, *Burning Man* is a marvel of iconoclastic

biography. With flair and focus, Wilson unleashes a distinct perspective on one of history's most beloved and infamous writers.

CIRCLE AWARD "In the spirit of Julian Barnes's Flaubert's Parrot and Alain de Botton's How Proust Can Change Your Life, Mr. Dyer's Out of Sheer Rage keeps circling its subject in widening loops and then darting at it when you least expect it . . . a wild book."--Christopher Lehmann-Haupt, The New York Times Geoff Dyer was a talented young writer, full of energy and reverence for the craft, and determined to write a study of D. H. Lawrence. But he was also thinking about a novel, and about leaving Paris, and maybe moving in with his girlfriend in Rome, or perhaps traveling around for a while. Out of Sheer Rage is Dyer's account of his struggle to write the Lawrence book--a

portrait of a man tormented, exhilarated, and exhausted. Dyer travels all over the world, grappling not only with his fascinating subject but with all the glorious distractions and needling anxieties that define the life of a writer.

One of the Best Books of the Year: The Christian Science Monitor NPR The Seattle Times St. Louis Post-Dispatch Chicago Tribune A New York Times Notable Book Finalist for the National Book Critics Circle Award in Biography The Arab Revolt against the Turks in World War I was, in the words of T. E. Lawrence, "a sideshow of a sideshow." As a result, the conflict was shaped to a remarkable degree by a small handful of adventurers and low-level officers far removed from the corridors of power. At the center of it all was Lawrence himself. In early 1914 he was an archaeologist excavating ruins in Syria; by 1917 he was riding into legend at the head of an Arab army as he fought a rearguard action against his own government and its imperial ambitions. Based on four years of intensive primary document research, Lawrence in Arabia definitively overturns received

wisdom on how the modern Middle East was formed.

Dare to Change Your Life Ebury Press

The untold story of Dr. Oliver Sacks, his own most singular patient "[An] engrossing biographical memoir. This is Sacks at full blast: on endless ward rounds, observing his post-encephalitic patients . . . exulting over horseshoe crabs and chunks of Iceland spar." —Barbara Kiser, *Nature*

The author Lawrence Weschler began spending time with Oliver Sacks in the early 1980s, when he set out to profile the neurologist for his own new employer, *The New Yorker*. Almost a decade earlier, Dr. Sacks had published his masterpiece *Awakenings*—the

account of his long-dormant patients' miraculous but troubling return to life in a Bronx hospital ward. But the book had hardly been an immediate success, and the ruffled clinician was still largely unknown. Over the ensuing four years, the two men worked closely together until, for wracking personal reasons, Sacks asked Weschler to abandon the profile, a request to which Weschler acceded. The two remained close friends, however, across the next thirty years and then, just as Sacks was dying, he urged Weschler to take up the project once again. This book is the result of that entreaty. Weschler sets Sacks's brilliant table talk and extravagant personality in vivid relief, casting himself as a beanpole Sancho to Sacks's capacious Quixote. We see Sacks rowing and ranting and caring deeply; composing the essays that would form *The Man Who Mistook His Wife for a Hat*; recalling his turbulent drug-fueled younger days; helping his patients and exhausting his friends; and waging intellectual war against a medical and scientific

establishment that failed to address his greatest concern: the spontaneous specificity of the individual human soul. And all the while he is pouring out a stream of glorious, ribald, hilarious, and often profound conversation that establishes him as one of the great talkers of the age. Here is the definitive portrait of Sacks as our preeminent romantic scientist, a self-described “clinical ontologist” whose entire practice revolved around the single fundamental question he effectively asked each of his patients: How are you? Which is to say, How do you be? A question which Weschler, with this book, turns back on the good doctor himself.

Lawrence in Arabia

Aurum

Selected for The Globe 100 Books in 2013. With the 2013 CBC Massey Lectures, bestselling author Lawrence Hill offers a provocative examination of the scientific and social history of blood, and on the ways that it

unites and divides us today. Blood runs red through every person’s arteries and fulfills the same functions in every human being. The study of blood has advanced our understanding of biology and improved medical treatments, but its cultural and social representations have divided us perennially. Blood pulses through religion, literature, and the visual arts. Every time it pools or spills, we learn a little more about what brings human beings together and what pulls us apart. For centuries, perceptions of difference in our blood have separated people on the basis of gender, race, class, and nation. Ideas about blood purity have spawned rules about who gets to belong to a family or cultural group, who enjoys the rights of citizenship and nationality,

what privileges one can expect to be granted or denied, whether you inherit poverty or the right to rule over the masses, what constitutes fair play in sport, and what defines a person's identity. *Blood: The Stuff of Life* is a bold meditation on blood as an historical and contemporary marker of identity, belonging, gender, race, class, citizenship, athletic superiority, and nationhood.

And How Are You, Dr. Sacks? Da Capo Press

The reason why clinical science has not solved the riddle of cancer may not lie totally within the realm of the laboratory. It may lie in part in the mind and emotions of the patient. After two decades of research and psychotherapeutic work with cancer patients,

Lawrence LeShan offers new evidence and startling insights into why some individuals get cancer while others do not--and why some are able to fight successfully for their lives while others rapidly succumb to the disease. Dr. LeShan has accumulated strong evidence that the mind can make the body receptive to cancer--and that the mind is also capable of fighting back. This is a book of hope. For while cancer kills, it can also be killed. *You Can Fight For Your Life* is a major humanistic work by an author with a passionate commitment to life.

Esmeralda Santiago's story begins in rural Puerto Rico, where her childhood was full of both tenderness and domestic strife, tropical

sounds and sights as well as poverty. Growing up, she learned the proper way to eat a guava, the sound of tree frogs in the mango groves at night, the taste of the delectable sausage called morcilla, and the formula for ushering a dead baby's soul to heaven. As she enters school we see the clash, both hilarious and fierce, of Puerto Rican and Yankee culture. When her mother, Mami, a force of nature, takes off to New York with her seven, soon to be eleven children, Esmeralda, the oldest, must learn new rules, a new language, and eventually take on a new identity. In this first volume of her much-praised, bestselling trilogy, Santiago brilliantly recreates the idyllic landscape and tumultuous family life of her earliest years and her tremendous journey from the barrio to Brooklyn, from translating for her mother at the welfare office to high honors at Harvard.
