Advice that begins with the simple words of wisdom passed down from Anne's father—also a writer—in the iconic passage that gives the book its title: "Thirty years ago my older brother, who was ten years old at the time, was trying to get a report on birds written that he'd had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. Then my father sat down beside him, put his arm around my brother's shoulder, and said, 'Bird by bird, buddy. Just take it bird by bird.'"

The long-awaited guide to writing long-form nonfiction by the legendary author and teacher Draft No. 4 is a master class on the writer's craft. In a series of playful, expertly wrought essays, John McPhee shares insights he has gathered over his career and has refined while teaching at Princeton University, where he has nurtured some of the most esteemed writers of recent decades. McPhee offers definitive guidance in the decisions regarding arrangement, diction, and tone that shape nonfiction pieces, and he presents extracts from his work, subjecting them to wry scrutiny. In one essay, he considers the delicate art of getting sources to tell you what they might not otherwise reveal. In another, he discusses how to use flashback to place a bear encounter in a travel narrative while observing that "readers are not supposed to notice the structure. It is meant to be about as visible as someone's bones." The result is a vivid depiction of the writing process, from reporting to drafting to revising—and revising, and revising. Draft No. 4 is enriched by multiple diagrams and by personal anecdotes and charming reflections on the life of a writer. McPhee describes his enduring relationships with The New Yorker and Farrar, Straus and Giroux, and recalls his early years at Time magazine. Throughout, Draft No. 4 is enlivened by his keen sense of writing as a way of being in the world.

A classic handbook for anyone who needs to write, Writing With Power speaks to everyone who has wrestled with words while seeking to gain power with them. Here, Peter Elbow emphasizes that the essential activities underlying good writing and the essential exercises promoting it are really not difficult at all. Employing a cookbook approach, Elbow provides the reader (and writer) with various recipes: for getting words down on paper, for revising, for dealing with an audience, for getting feedback on a piece of writing, and still other recipes for approaching the mystery of power in writing. In a new introduction, he offers his reflections on the original edition, discusses the responses from people who have followed his techniques, how his methods may differ from other processes, and how his original topics are still pertinent to today's writer. By taking risks and embracing mistakes, Elbow hopes the writer may somehow find a hold on the creative process and be able to heighten two mentalities--the production of writing and the revision of it. From students and teachers to novelists and poets, Writing with Power reminds us that we can celebrate the uses of mystery, chaos, nonplanning, and magic, while achieving analysis, conscious control, explicitness, and care in whatever it is we set down on paper.

Collaboration is interwoven in the writing process in both obvious and subtle ways--from a writer using the language that he or she inherited, to referring to the works of other writers both explicitly and implicitly, to writing together with a colleague. In this book, the author explains that collaborative writing can be a useful pedagogical tool professors can use to help students actively learn about the subject matter and about themselves.
