Frankenstein; or, The Modern Prometheus, generally known as Frankenstein, is a novel written by the British author Mary Shelley. The title of the novel refers to a scientist, Victor Frankenstein, who learns how to create life and creates a being in the likeness of man, but larger than average and more powerful. In popular culture, people have tended to refer to the Creature as "Frankenstein," despite this being the name of the scientist. Frankenstein is a novel infused with some elements of the Gothic novel and the Romantic movement. It was also a warning against the "over-reaching" of modern man and the Industrial Revolution, alluded to in the novel's subtitle, The Modern Prometheus. The story has had an influence across literature and popular culture and spawned a complete genre of horror stories and films. It is arguably considered the first fully realized science fiction novel.

Gábor Lövei's scientific communication course for students and scientists explores the intricacies involved in publishing primary scientific papers, and has been taught in more than twenty countries. Writing and Publishing Scientific Papers is the distillation of Lövei's lecture notes and experience gathered over two decades; it is the coursebook many have been waiting for. The book's three main sections correspond with the three main stages of a paper's journey from idea to print: planning, writing, and publishing. Within the book's chapters, complex questions such as 'How to write the introduction?' or 'How to submit a manuscript?' are broken down into smaller, more manageable problems that are then discussed in a straightforward, conversational manner, providing an easy and enjoyable reading experience. Writing and Publishing Scientific Papers stands out from its field by targeting scientists whose first language is not English. While also touching on matters of style and grammar, the book's main goal is to advise on first principles of communication. This book is an excellent resource for any student or scientist wishing to learn more about the scientific publishing process and scientific communication. It will be especially useful to those coming from outside the English-speaking world and looking for a comprehensive guide for publishing their work in English.

Draft No. 4 Princeton Review

When life-changing pain is coupled with the welcoming of a new story for yourself, the word bittersweet just doesn't do it justice. You are quite literally in the middle - anchored between where you thought you were headed and where you're going now. In that uncertain middle space is where this story takes place, and maybe where you find yourself, too. The life Kelsey Baldwin had imagined for herself, the one she was right in the middle of, quickly crumbled around her on a single day as she was faced with a looming divorce while staring at a positive pregnancy test. It wasn't the way it was supposed to go. With each uncertain transition she went through - divorce, pregnancy, giving birth, moving cities, dating, raising a child without a partner - she clung to what she knew for sure: she was a strong girl and a brave girl, and the middle was not the ending. (Spoiler: that's why it's called the middle.) My story might look really different than yours, but I'm willing to bet you find threads from my messy middle that are also woven into yours.

Beautiful Malice Routledge

Most books on writing assume that the sole purpose of writing is communication. These manuals seldom go beyond teaching how to avoid the problems of punctuation, grammar, and style that at one time or another ensnare the best of writers. Few, if any, of these books explore writing as a way of shaping thought. V.A. Howard and J.H. Barton, two Harvard researchers in education, take a radically different approach. While they agree with their predecessors that an important function of writing is the clear, direct expression of thought, they point out that many of our thoughts first come into being only when put to paper. By failing to recognize the link between thinking and writing, we fall into the deadlock inappropriately named writer's block. Thinking on Paper shows how writer's block as well as many other writing problems are engendered by the tendency, supported by traditional approaches, to separate thinking from writing. Drawing on the developing field of symbol theory, Howard and Barton explain why this separation is unsound and demonstrate how to improve dramatically our ability to generate and express ideas. For everyone who writes, this is a readable, accessible manual of immense educational and practical value.

Do We Really Need Pen & Paper Anymore? Video Feedback Considered Within The Writing Process SDE Classics

Essay from the year 2012 in the subject Didactics - Common Didactics, Educational Objectives, Methods, , language: English, abstract: The practice of giving feedback within the writing process has been the subject of many studies since the mid-1980s. The call for teachers to develop better feedback practices became apparent after studies showed that students have been generally less than satisfied with how teacher-student written feedback has been given. This chapter aims to identify how teachers may be able to offer feedback in a way that engages students, and presents them with clear messages that they will understand and appreciate. In order for this to be tangible in this context, the consideration and integration of alternative modes of learning through Information Communication Technologies (ICT) need to be realised. In particular, the use of Web 2.0 technology to assist in the writing process by giving students video feedback, instead of written feedback, on their draft papers. The primary epistemology of the proposed approach is consistent with students looking for improved methods of feedback they receive from teachers. This paper describes ongoing ICT-pedagogical practices for improving feedback given by teachers to students at high school level. The students aged fourteen-sixteen are members of a small Turkish high school population of around three hundred pupils. Based on my own classroom research, this paper focuses on feedback given on academic essays completed within the writing process, in order to discover how students respond to a different type of feedback than that to which they have been accustomed. I will also suggest that we, as ELT practitioners, find ways to move for a change to our feedback practices, and provide students with an alternative methodology that could lead to better student-engagement and focused writing practices within this context.

Most writing is done under pressure. An executive has to produce a three-page position paper by tomorrow at nine. A department head suddenly has to write a one-page action memo by noon. A graduate student has a 20-page research paper due in a week. Yet, while most students & professionals write under pressure - with limited time, limited space, & a supervisor or instructor to please - few approach the task systematically. In 'Writing Under Pressure', Sanford Kaye, a renowned expert on the subject, presents a system he calls the Quick Writing Process (QWP) that focuses on real-world writing tasks & shows how to produce the clearest, most honest, most powerful work possible under the constraints of time & space. A writing instructor with 25 years' experience teaching students & professionals in business & government, Kaye tells writers how to budget their time & how to use this time efficiently.

When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

The long-awaited guide to writing long-form nonfiction by the legendary author and teacher Draft No. 4 is a master class on the writer 's craft. In a series of playful, expertly wrought essays, John McPhee shares insights he has gathered over his career and has refined while teaching at Princeton University, where he has nurtured some of the most esteemed writers of recent decades. McPhee offers definitive guidance in the decisions regarding arrangement, diction, and tone that shape nonfiction pieces, and he presents extracts from his work, subjecting them to wry scrutiny. In one essay, he considers the delicate art of getting sources to tell you what they might not otherwise reveal. In another, he discusses how to use flashback to place a bear encounter in a travel narrative while observing that "readers are not supposed to notice the structure. It is meant to be about as visible as someone 's bones." The result is a vivid depiction of the writing process, from reporting to drafting to revising—and revising, and revising. Draft No. 4 is enriched by multiple diagrams and by personal anecdotes and charming reflections on the life of a writer. McPhee describes his enduring relationships with The New Yorker and Farrar, Straus and Giroux, and recalls his early years at Time magazine. Throughout, Draft No. 4 is enlivened by his keen sense of writing as a way of being in the world.

Politics and the English Language Renard Press Ltd

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell 's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell 's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell 's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. Originally published in 1980, this title began as a set of questions posed by faculty on the campus of Carnegie-Mellon University: What do we know about how people write? What do we need to know to help people write better? This resulted in an interdisciplinary symposium on "Cognitive Processes in Writing" and subsequently this book, which includes the papers from the symposium as well as further contributions from several of the attendees. It presents a good picture of what research had shown about how people write, of what people were trying to find out at the time and what needed to be done.

A modern classic by Nobel Laureate J.M. Coetzee. His latest novel, The Schooldays of Jesus, is now available from Viking. Late Essays: 2006-2016 will be available January 2018. For decades the Magistrate has been a loyal servant of the Empire, running the affairs of a tiny frontier settlement and ignoring the impending war with the barbarians. When interrogation experts arrive, however, he witnesses the Empire's cruel and unjust treatment of prisoners of war. Jolted into sympathy for their victims, he commits a quixotic act of rebellion that brands him an enemy of the state. J. M. Coetzee's prize-winning novel is a startling allegory of the war between oppressor and oppressed. The Magistrate is not simply a man living through a crisis of conscience in an obscure place in remote times; his situation is that of all men living in unbearable complicity with regimes that ignore justice and decency. Mark Rylance (Wolf Hall, Bridge of Spies), Ciro Guerra and producer Michael Fitzgerald are teaming up to bring J.M. Coetzee's Waiting for the Barbarians to the big screen.
