*Transitions in Writing* Simon and Schuster

This volume represents the first collection of empirical studies focusing on peer interaction for L2 learning. These studies aim to unveil the impact of mediating variables such as task type, mode of interaction, and social relationships on learners' interactional behaviors and language development in this unique and pedagogically powerful learning context. To examine these issues, contributors employed quantitative, qualitative, and mixed-methods designs as well as cognitive, social, and sociocognitive theoretical frameworks. The majority of the studies are classroom based and were

conducted in a rich array of settings covering five continents and encompassing a wide range of learner L1s and target languages. These settings include second and foreign language classrooms from primary to university level, content-based programs, online contexts, and after-school programs. To span the divide between research and practice, each study includes a section suggesting pedagogical implications.

Writing Workshop Cambridge University Press  
"A reminder that sometimes, there is a good reason to break the rules. . . . This winsome pairing of text and illustration is a natural for storytime." -- SCHOOL LIBRARY JOURNAL (starred review) (Ages 4-7) Miss

Merriweather, the head librarian, is very particular about rules in the library. No running allowed. And you must be quiet. But when a lion comes to the library one day, no one is sure what to do. There aren't any rules about lions in the library. And, as it turns out, this lion seems very well suited to library visiting. His big feet are quiet on the library floor. He makes a comfy backrest for the children at story hour. And he never roars in the library, at least not anymore. But when something terrible happens, the lion quickly comes to the rescue in the only way he knows how. Michelle Knudsen's disarming story, illustrated by the matchless Kevin Hawkes in an expressive timeless style, will win over even the most ardent of rule keepers.

Since the publication of the first edition in 2002, there have been two major developments in L2 writing and peer response teaching and research. The first is the increased interest in CALL and computer-mediated communication (CMC) for L2 pedagogy; the second is the accessibility and viability of research on L2 peer response from all over the world. Both developments are thoroughly addressed in this new edition. Now that classes are as likely to be online as held in physical classrooms and now that a new generation of digital natives can

---

routinely read and respond to what others write via laptops, tablets, and phones, peer response as pedagogical practice is not just more easily implemented, but it is more likely to feel natural to L2 learners. The Second Edition is a highly accessible guide to how the world is using peer response and serves as a motivator and facilitator for those who want to try it for the first time or want to increase the effectiveness of the activities—whether via CMC or not. The volume includes 11 forms useful in training students to provide good peer feedback, including a final checklist to ensure teachers have taken all the necessary steps to achieve a successful peer feedback activity.

Transitions in Writing addresses the

experiences of writers as they move  
between contexts of writing and juggle  
new and different demands. Spelman  
Miller and Stevenson bring together  
research by scholars in a range of  
settings across the world who  
approach transition from different  
standpoints. Transition is often  
conceived of as a change in setting,  
coinciding with physical or temporal  
relocation, such as between stages of  
an educational or professional career.  
However, writers also manage more  
local, micro-level transitions as they  
move between genres, registers and  
rhetorical moves to meet the demands  
of the task. The combination of both  
macro- and micro-level perspectives  
on transition offers a novel, broad

conception of the types of change a writer encounters, and illustrates a range of methodological approaches appropriate to exploring such transitions.

Following on from *Writers at Work: The Paragraph* and *Writers at Work: the Short Composition*, *Writers at Work: The Essay* will teach the basics of academic essay writing to intermediate-level students. In *Writers at Work: The Essay*, college and

university students use the process approach to write different genres of essays common at the post-secondary level, the most important being expository writing, persuasive writing, and timed essay exams. Each chapter uses the same five-step approach to writing that is used in the two lower-level books. In each chapter, students analyze a model essay, noticing key organizational and linguistic features; brainstorm ideas; write multiple drafts; revise their work; engage in peer reviews; and share their finished work. Chapters recycle and build upon previously taught material.
