Most pre-service education students are enthusiastic about the progressive, constructivist, and student-centered theory and practice advocated in many teacher education programs and by the National Council of Teachers of English. Yet in actual day-to-day practice, teachers often have trouble thinking of ways in which such student-centered and constructivist practices in literacy instruction can be implemented in classrooms which are increasingly driven by high stakes tests, increased accountability, and mandated and even 'teacher proof' scripted curricula. *Teaching Authentic Language Arts in a Test-Driven Era* provides a powerful and much-needed counterargument to the assumption that test-driven curricula preclude meaningful instruction and authentic student engagement within a Language Arts curriculum. Providing teachers with the theoretical stances and pedagogical tools to develop a Language Arts practice which can be personally rewarding as well as beneficial to students, *Teaching Authentic Language Arts in a Test-Driven Era* empowers teachers to be effective even within the confines of a testing- and accountability-driven curriculum.

New Perspectives in English Two'99 Ed. A Guide to Writing Sociology Papers

When it was first published twenty years ago, *The Bedford Guide for College Writers* brought a lively and innovative new approach to the teaching of writing. Since that time, authors X. J. and Dorothy M. Kennedy have won praise for their friendly tone and their view, apparent on every page of the text, that writing is the "usually surprising, often rewarding art of thinking while working with language." More recently, experienced teacher and writer Marcia F. Muth joined the author team, adding more practical advice to help all students — even those underprepared for college work — become successful academic writers. While retaining the highly praised "Kennedy touch," *The Bedford Guide* continues to evolve to meet classroom needs. The new edition does even more to build essential academic writing skills, with expanded coverage of audience analysis, source-based writing, argumentation and reasoning, and more.

This book proposes a broad-based multiliteracies theory and praxis for college writing curriculum. Khadka expands on the work of the New London Group's theory of multiliteracies by integrating work from related disciplinary fields such as media studies, intercultural communication, World Englishes, writing studies, and literacy studies to show how they might be brought together to aid in designing curriculum for teaching multiple literacies, including visual, digital, intercultural, and multimodal, in writing and literacy classes. Building on insights developed from qualitative analysis

of data from the author's own course, the book examines the ways in which diverse groups of students draw on existing literacy practices while also learning to cultivate the multiple literacies, including academic, rhetorical, visual, intercultural, and multimodal, needed in mediating the communication challenges of a globalized world. This approach allows for both an exploration of students' negotiation of their cultural, linguistic, and modal differences and an examination of teaching practices in these classrooms, collectively demonstrating the challenges and opportunities afforded by a broad-based multiliteracies theory and praxis. This book will be of particular interest to scholars and researchers in writing studies, rhetoric and communication studies, multimodality, media studies, literacy studies, and language education.

"Ross Gay's eye lands upon wonder at every turn, bolstering my belief in the countless small miracles that surround us." —Tracy K. Smith, Pulitzer Prize winner and U.S. Poet Laureate
The winner of the NBCC Award for Poetry offers up a spirited collection of short lyric essays, written daily over a tumultuous year, reminding us of the purpose

and pleasure of praising, extolling, and celebrating ordinary wonders. Ross Gay's *The Book of Delights* is a genre-defying book of essays—some as short as a paragraph; some as long as five pages—that record the small joys that occurred in one year, from birthday to birthday, and that we often overlook in our busy lives. His is a meditation on delight that takes a clear-eyed view of the complexities, even the terrors, in his life, including living in America as a black man; the ecological and psychic violence of our consumer culture; the loss of those he loves. Among Gay's funny, poetic, philosophical delights: the way Botan Rice Candy wrappers melt in your mouth, the volunteer crossing guard with a pronounced tremor whom he imagines as a kind of boat-woman escorting pedestrians across the River Styx, a friend's unabashed use of air quotes, pickup basketball games, the silent nod of acknowledgment between black people. And more than any other subject, Gay celebrates the beauty of the natural world—his garden, the flowers in the sidewalk, the birds, the bees, the mushrooms, the trees. This is not a book of how-to or inspiration, though it could be read that way. Fans of Roxane Gay, Maggie Nelson, and Kiese Laymon will revel in Gay's voice, and his insights. *The Book of Delights* is about our connection to the world, to each other, and the rewards that come from a life closely observed. Gay's pieces serve as a powerful and necessary reminder that we can, and should, stake out a space in our lives for delight.

Wherever we look today, popular culture greets us with "texts" that make implicit arguments; this book helps students to think and write critically about these texts. *The World Is a Text* teaches critical reading, writing, and argument in the context of pop-culture and visual examples, showing students how to "read" everyday objects and visual texts with basic semiotics. The book shows how texts of all kinds, from a painting to a university building to a pair of sneakers, make complex arguments through their use of signs and symbols, and shows students how to make these arguments in their own essays. This new edition is rich with images, real-world examples, writing and discussion prompts, and examples of academic and student writing. The first part of the book is a rhetoric covering argumentation, research, the writing process, and adapting from high-school to college writing, while the second part explores writing about specific cultural topics. Notes, instruction, and advice about research are woven into the text, with research instruction closely tied to the topic being discussed. New to the updated compact edition

are chapters on fashion, sports, and nature and the environment.

How do college writing teachers learn new ways to teach? Most current composition research focuses almost exclusively on student writers, ignoring the role the teacher plays in classroom development. Here is the first book to focus on college writing teachers and the ways in which they are affected by graduate rhetoric pedagogy courses. Wendy Bishop observed teachers enrolled in a doctoral seminar, titled "Teaching Basic Writing," and then conducted case studies of five of those teachers in their college writing classrooms to investigate how their teaching practices changed and how their previous professional and personal histories influenced their ability to make those changes.

What are the secrets of successful teams? Why do some teams achieve remarkable success while others fail or are consigned to mediocrity? To find the answers, Carl E. Larson and Frank M. J. LaFasto conducted a three-year study of teams and team achievement. Interviewing a wide range of teams, including the space shuttle Challenger investigation team, executive management teams and a championship football team, Larson and LaFasto discovered a surprising consistency in the characteristics of effective teams. In *Teamwork*, they explore the eight properties of successful teams: a clear, elevating goal; a results-driven structure; competent team members; unified

commitment; collaborative climate; standards of excellence; external support and recognition; and principled leadership. A final chapter examines the priority of the steps that lead to the building of a high performance team. The authors strive to make the concepts concrete, coupling solid theory with straightforward, practical advice on how to apply it and with lively, fascinating anecdotes. The volume will appeal to practitioners, scholars, and advanced students in the areas of organization studies and management, as well as interpersonal communication.
