The most accessible introduction to ethical theory, moral reasoning,

and contemporary ethical issues--now shorter and more focused, and still the best value. U.S. Department of Transportation Federal Motor Carrier Safety Administration Register John Wiley & Sons "This book will make the case for multiple, diverse kinds of analysis to be taught in the high school English classroom. In addition to showing what written analysis looks like "in the wild," the authors will provide readers with a framework of fundamental analytical skills for instruction.

Importantly, Marchetti and O'Dell will advocate for framing analytical writing around students' (of all levels and abilities) passions and expertise. And just as they do in their previous Heinemann book, *Writing with Mentors*, they will share resources for bringing many different kinds of analytical writing into the classroom"--

The Film
Experience is a comprehensive introduction to film that treats students as the avid movie fans they are while surpassing all other texts in helping them understand the art form's full scope, breadth, and depth. Like other introductory texts, it offers strong coverage of film's formal elements,

but goes further by situating this formal knowledge in the larger cultural contexts that inform the ways that we all view film. The authors' rich narrative integrates the cultural history of film throughout and demonstrates how the elements, practices, economics, and history of the medium contribute to a film's many possible meanings. The outstanding art program — now in full color — visually reinforces all the key concepts and techniques discussed in the text.
