Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and

executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.

Original. *Suggestions to Medical Authors and A.M.A. Style Book* Createspace Independent Publishing Platform Only a child so quick-witted as Clemency Pogue, upon finding herself attacked by a wicked, invincible fairy, would remember a lesson learned from the story of Peter Pan. She shouts "I don't believe in

fairies," and when it doesn't work, keeps shouting it until the horrible little creature drops as dead as a gossamer-winged doorknob. But then a mischievous hobgoblin arrives to tell Clem that she's killed six other fairies around the globe, some bad, but mostly good. Even if it was a mistake, it's now Clem's duty to set the world aright. In his hilarious, action-

packed debut novel, JT Petty does for burlap pants what holes have done for Swiss cheese. *Classic Createspace Independent Publishing Platform* Learning how to write or working on improving your written Chinese characters?
