In the western Pacific Ocean north of the equator, the far-flung islands of Micronesia extend across an area as large as that of the United States. Most of this area is administered by the United States as a trusteeship granted by the United Nations after World War II. Having been governed in turn by three other world powers— Spain, Germany, and Japan—the 91,000 Micronesian inhabitants are now at last in the process of working out their own political future. This book, a thorough,

scholarly study of the development of the legislative process in the Trust Territory, focuses on the Congress of Micronesia, the legislature destined to carry the burden of the political development in the Territory. It examines institution-building over a period of two decades, describing how American forms and processes have been modified to fit the indigenous cultures of Micronesia, and how these cultures have accommodated to them. It also treats the impact of institutional change upon the role of indigenous leadership, highlighting the emergence of

Micronesian leaders most capable of participating in the new political system. Here are detailed the day by day negotiations to set up a district legislature between the spokesmen for aboriginal Yap (of stone money fame) and the chiefs of the island empire which once paid it tribute. Here is described what happens when the U.S. Supreme Court 's "one man, one vote" formula is applied to people yet learning how to vote. The United States today has no defined policy for the eventual status of her Pacific island possessions. The future of Guam and American Samoa remains unclear. But

the legislators of the Trust Territory have acted for the people they represent. Their adopted legislative institution will be central in determining whether or not the Trust Territory will become fully self-governing and independent.

By some counts, Model United Nations (MUN) has become the single most popular extracurricular academic activity among high school students. More than two million high school and college students have assumed the roles of ambassadors from real United Nations member countries, participated in spirited debate about the world's most pressing issues, and called, "Point of order, Mr. Chairman!" Now, in *Coaching Winning Model United Nations Teams*, Ed Mickolus and J. Thomas Brannan give MUN teachers and coaches the information they need to succeed. In this informative volume, the authors (MUN coaches themselves) provide detailed guidance for each step of the MUN path, from the first meeting in the

teacher's classroom to the final days of an official MUN conference. Coaches will learn about the ins and outs of parliamentary procedure and the most effective ways to help their students draft position papers and resolutions. Most important, Mickolus and Brannan illustrate the many ways that teachers can inspire their students to take an active role in making the world a better place. By the time their students move on, MUN coaches will have instilled in them such important qualities as empathy, self-confidence, and grace under pressure. Coaching Winning Model United Nations Teams is a fun, useful guide for teachers and coaches who are working to help develop tomorrow's leaders today. CITIZEN NINJA stand up

to power in pursuit of freedom, truth, and justice. Citizen Ninjas speak up; they don't wait for others to speak for them. Citizen Ninjas are prepared, discerning, self-reliant and assertive. They step out of their comfort zone to nimbly challenge powerful entities that disenfranchise the public and reduce citizen power. Citizen Ninjas respond to community issues and actively engage City Hall to make a difference. They pay attention to government business and actively direct elected public servants to create policies that benefit the interests of the whole community. They are the activists who demand government transparency and are the watchdogs who speak out when there is corruption or ethical wrongdoing. Citizen Ninjas are passionate. They know that their civic participation places them in a better

position of influence when new regulations, mandates, and ordinances are enacted. Citizen Ninjas are activists who strive to preserve the power of self-government—a representative republic that is of the people, by the people, and for the people. They actively engage in the public square rather than passively allowing government agencies to make decisions on their behalf. While being passionate, Citizen Ninjas avoid throwing vitriolic word bombs like “ fascist pig ” or “ baby killer ” and instead build trust, find common ground, and work toward constructive solutions. Showing up at a city council meeting, a public workshop, a rally, or a town hall meeting to express dissatisfaction is the right thing to do, but being effective takes more than good intentions. Citizen Ninjas are smarter, more cunning and

strategically savvy in approaching highly organized government agencies, powerful corporations and established non-governmental organizations they partner with. In CITIZEN NINJA author Baker presents a peaceful approach to political activism espousing an exchange of ideas, robust debate, respect, and tolerance as opposed to tactics which promote violence, hatred, prejudice, and bullying. Every two years, many Americans get busy and campaign for the candidate of their choice. Activity ranges from simply speaking to friends and family about their choices, to donating money, walking precincts, and voting. Then after the election the majority go back to working, playing, and raising families. CITIZEN NINJA explores the importance of continuing participation in government

after elections. Baker stresses that We the People keep informed about what is going on in local government agencies—city council, school board, county board of supervisors, and metropolitan planning organizations, to seek opportunities for civic participation. In CITIZEN NINJA shows that we are the boss, politicians are the employees who require supervision and guidance and are more effective when having our support and attention. When we are part of the process, we are part of the solution. In CITIZEN NINJA readers learn how to speak up in public without being scared or intimidated. CITIZEN NINJA shows that to be effective in civil discourse, we must transform the way we think about activism. Standing up to power is not about acting out in anger, condoning violence, or relying on mean-spirited

tactics. Rather it is about honesty, building trust, treating others with respect, working towards constructive solutions, and effective communication. With practice, CITIZEN NINJA readers will master skills that enable them to respond intelligently rather than to reacting to stimulation or provocation. These skills include how to seek opportunities for engagement, assess a setting, ask a question, discern a person ' s knowledge on an issue, neutralize a bully, and more!

The Congress of Micronesia CRC Press Robert's Rules of Order for Deliberative Assemblies Henry M. Robert There appears to be much needed a work on parliamentary law, based, in its general principles, upon the rules and practice of Congress, and adapted, in its details, to the use of ordinary societies. Such a work should

give, not only the methods of organizing and conducting the meetings, the duties of the officers and the names of the ordinary motions, but in addition, should state in a systematic manner, in reference to each motion, its object and effect; whether it can be amended or debated; if debatable, the extent to which it opens the main question to debate; the circumstances under which it can be made, and what other motions can be made while it is pending. This Manual has been prepared with a view to supplying the above information in a condensed and systematic manner, each rule being either

complete in itself, or giving references to every section that in any way qualifies it, so that a stranger to the work can refer to any special subject with safety.
