To err is human. Yet most of us go through life assuming (and sometimes insisting) that we are right about nearly everything, from the origins of the universe to how to load the dishwasher. In *Being Wrong*, journalist Kathryn Schulz explores why we find it so gratifying to be right and so maddening to be mistaken. Drawing on thinkers as varied as Augustine, Darwin, Freud, Gertrude Stein, Alan Greenspan, and Groucho Marx, she shows that error is both a given and a gift—one that can transform our worldviews, our relationships, and ourselves.

A magnificent active volcano, Mount Rainier ascends to 14,410 feet above sea level--the highest in Washington State. The source of five major rivers, it has more glaciers than any other peak in the contiguous U.S. Its slopes are home to ancient forests, spectacular subalpine meadows, and unique, captivating creatures. In *Tahoma and Its People*, a passionate, informed, hands-on science educator presents a natural and environmental history of Mount Rainier National Park and the surrounding region. Jeff Antonelis-Lapp explores geologic processes that create and alter landscapes, interrelationships within and between plant and animal communities, weather and climate influences on ecosystems, and what linked the iconic mountain with the people who traveled to it for millennia. He intersperses his own direct observation and study of organisms, as well as personal interactions with rangers, archaeologists, a master Native American weaver, and others. He covers a plethora of topics: geology, archaeology, indigenous villages and use of resources, climate and glacier studies,

alpine and forest ecology, rivers, watershed dynamics, keystone species, threatened wildlife, geological hazards, and current resource management. Numerous color illustrations, maps, and figures supplement the text. 2020 Banff Mountain Book Competition Finalist, Mountain Environment and Natural History category

Mother Goose Refigured presents annotated translations of Charles Perrault's 1697 fairy tales that attend to the irony and ambiguity in the original French and provide a fresh take on heroines and heroes that have become household names in North America. Charles Perrault published *Histoires ou Contes du temps passé* ("Stories or Tales of the Past") in France in 1697 during what scholars call the first "vogue" of tales produced by learned French writers. The genre that we now know so well was new and an uncommon kind of literature in the epic world of Louis XIV's court. This inaugural collection of French fairy tales features characters like Sleeping Beauty, Cinderella, and Puss in Boots that over the course of the eighteenth century became icons of social history in France and abroad. Translating the original *Histoires ou Contes* means grappling not only with the strangeness of seventeenth-century French but also with the ubiquity and familiarity of

plots and heroines in their famous English personae. From its very first translation in 1729, *Histoires ou Contes* has depended heavily on its English translations for the genesis of character names and enduring recognition. This dependability makes new, innovative translation challenging. For example, can Perrault's invented name "Cendrillon" be retranslated into anything other than "Cinderella"? And what would happen to our understanding of the tale if it were? Is it possible to sidestep the Anglophone tradition and view the seventeenth-century French anew? Why not leave Cinderella alone, as she is deeply ingrained in cultural lore and beloved the way she is? Such questions inspired the translations of these tales in *Mother Goose Refigured*, which aim to generate new critical interest in heroines and heroes that seem frozen in time. The book offers introductory essays on the history of interpretation and translation, before retranslating each of the *Histoires ou Contes* with the aim to prove that if Perrault's is a classical frame of reference, these tales nonetheless exhibit strikingly modern strategies. Designed for scholars, their classrooms, and other adult readers of fairy tales, *Mother Goose Refigured* promises to inspire new academic interpretations of the Mother Goose tales, particularly among readers who do not have access to the original French and have relied for their critical inquiries on traditional renderings of the tales. Organized both chronologically and thematically, *Encounters with the People* is an edited, annotated compilation of unique primary sources related to Nez Perce history--Native American oral histories, diary excerpts, military reports, maps, and more. Generous elders shared their collective memory of carefully guarded stories passed down through multiple generations. One described the level of attentiveness required to preserve their oral history as "so still to listen that you could hear a bird take a drink of water on the other side of the mountain." The work begins with early Nimiipuu/Euro-American contact and extends to the period immediately after the Treaty of 1855 held at Walla Walla. The editors scoured archives, federal document repositories, and state and local historical museums in search of little-known documents related to regional cultural and environmental history. Most of the selected material is published for the first time or is found only in obscure sources. Complete documents are included wherever possible, and any excisions carefully noted. Part of the *Voices from Nez Perce Country* series, *Encounters with the People* includes a thorough, up-to-date, annotated bibliography. Those interested in the Nez Perce, Native American Studies, Lewis and Clark, early missionary work, and Inland Northwest settlement will find it an essential reference work. In this vibrant and approachable book, award-winning writers of black speculative fiction bring together excerpts from their work and creative reflections on futurisms with original essays. Features an introduction by Suyi Okungbowa. *Afro-Centered Futurisms in Our Speculative Fiction* showcases creative-critical essays that negotiate genre bending and black speculative fiction with writerly practice. As Afrodescendant peoples with lived experience from the continent, award-winning authors use their intrinsic voices in critical conversations on Afrofuturism and Afro-centered futurisms. By engaging with difference, they present a new kind of African study that is an evaluative gaze at African history, African spirituality, Afrosurrealism, "becoming," black radical imagination, cultural identity, decolonizing queerness, myths, linguistic cosmologies, and more. Contributing authors – Aline-Mwezi Niyonsenga, Cheryl S. Ntummy, Dilman Dila, Eugen Bacon, Nerine Dorman, Nuzo Onoh, Shingai Njeri Kagunda, Stephen Embleton, Suyi Okungbowa, Tobi Ogundiran and Xan van Rooyen – offer boldly hybrid chapters (both creative and scholarly) that interface Afrocentric artefacts and exegesis. Through ethnographic reflections and intense scrutinies of African fiction, these writers contribute open and diverse reflections of Afro-centered futurisms. The authors in Afro-

Centered Futurisms in Our Speculative Fiction feature in major genre and literary awards, including the Bram Stoker, World Fantasy, British Fantasy, Locus, Ignyte, Nommo, Philip K. Dick, Shirley Jackson and Otherwise Awards, among others. They are also intrinsic partners in a vital conversation on the rise of black speculative fiction that explores diversity and social (in)justice, charting poignant stories with black hero/ines who remake their worlds in color zones of their own image.

The style of the Associated Press defines clear news writing. In fact, more people write for the AP news service than for any single newspaper or broadcaster in the world. The AP Stylebook is therefore "the journalist's bible," an essential handbook for all writers, editors, students, and public-relations specialists. The AP Stylebook contains over 5,000 entries laying out the AP's rules on grammar, spelling, punctuation, and usage. It gives journalists the references they need to write about the world today: correct names of countries and organizations, language to avoid, common trademarks. Special sections cover business and sports reporting. This edition, published in the Associated Press's 150th year, also includes crucial advice on how writers can guard against libel and copyright infringement. An up-to-date AP Stylebook belongs on the desk of every working writer.

Do you sometimes find yourself longing for "the good old days"? Do you laugh at yourself for even thinking this because - after all - you're not even 50 yet? And - upon seeing some of the things the kids of today have, or when you see how easy they have it, do you catch yourself thinking out loud "When I was a kid..." only to cover your mouth in horror as you realize that you sound just like your parents? Do you feel a jolt of... you're not sure what... when you realize that

you're thinking of the '70s? How good things were in the '70s? Join the author as he recounts his own experiences growing up in this avocado green and burnt orange decade. The things we had and the things we didn't have; the things we took for granted and what family life was like in those years. Remember the music, the movies, the cars, the toys, the fashions, and so much more as your sentimental recollections play once again before you like a worn out 8mm movie in your mind. We were kids in the '60s, teens in the '70s, and now we're almost 50. This is a humorous, nostalgic, pensive, and fun-filled look at what it was like to grow up in this generation. Try to keep up with the fun as you revisit your childhood memories, and don't be surprised if you, like the author, find yourself longing once again for "the good old days." From a top scientist and the creator of the hugely popular web comic Saturday Morning Breakfast Cereal, a hilariously illustrated investigation into future technologies -- from how to fling a ship into deep space on the cheap to 3D organ printing What will the world

of tomorrow be like? How does progress happen? And why do we not have a lunar colony already? What is the hold-up? In this smart and funny book, celebrated cartoonist Zach Weinersmith and noted researcher Dr. Kelly Weinersmith give us a snapshot of what's coming next -- from robot swarms to nuclear fusion powered-toasters. By weaving their own research, interviews with the scientists who are making these advances happen, and Zach's trademark comics, the Weinersmiths investigate why these technologies are needed, how they would work, and what is standing in their way. New technologies are almost never the work of isolated geniuses with a neat idea. A given future technology may need any number of intermediate technologies to develop first, and many of these critical advances may appear to be irrelevant when they are first discovered. The journey to progress is full of strange detours and blind alleys that tell us so much about the human mind and the march of civilization. To this end, Soonish investigates ten different emerging fields, from programmable matter to augmented reality, from space elevators to robotic construction, to show us the amazing world we will have, you know, soonish. "Standing on the back of their groundbreaking research on school culture, Kruse and Seashore Louis provide an insightful and very practical guide that should be a must-read for anyone preparing to become a school leader." —Kenneth Leithwood, Professor OISE/University of Toronto "A manageable, well-rehearsed plan for discussion, research, and lots of reflective thought for any school leader willing to develop their own leadership and the culture in which they desire to lead." —Teresa P. Cunningham, Principal Laurel Elementary School, TN

Develop an integrated school culture that engages educators with their colleagues and communities! As a principal, you realize that effecting positive, long-lasting change requires support both within your school and in the wider community. This practical handbook shows school leaders how to build a climate of collaboration with staff, teachers, and parents as well as how to develop connections with foundations, business groups, social service providers, and government agencies. Sharon D. Kruse and Karen Seashore Louis call on principals to create a viable, sustainable school culture using organizational learning and trust to involve the professional community and to affect teaching and learning. This addition to the Leadership for Learning series presents a leadership approach that integrates teachers, parents, and community members into a coherent team. The authors examine schools that have achieved lasting cultural change and present practical strategies for: Diagnosing and shaping a school culture Revising leadership functions to broaden decision-making processes Rethinking organizational

structures Supporting continuous improvement while ensuring stability Building Strong School Cultures draws from business and psychology research on motivating and organizing people to provide school leaders with the skills they need to promote effective change.

Offshore Oil & Gas Rigs Washington State University Press In 1965 social scientist Charles S. Liebman published a study that boldly declared the vitality of American Jewish Orthodoxy and went on to guide scholarly investigations of the group for the next four decades. As American Orthodoxy continues to grow in geographical, institutional, and political strength, author Adam S. Ferziger argues in *Beyond Sectarianism: The Realignment of American Orthodox Judaism* that one of Liebman's principal definitions needs to be updated. While Liebman proposed that the "committed Orthodox" —observant rather than nominally affiliated—could be divided into two main streams: "church," or Modern Orthodoxy, and "sectarian," or Haredi Orthodoxy, Ferziger traces a narrowing of the gap between

them and ultimately a realignment of American Orthodox Judaism. Ferziger shows that significant elements within Haredi Orthodoxy have abandoned certain strict and seemingly uncontested norms. He begins by offering fresh insight into the division between the American sectarian Orthodox and Modern Orthodox streams that developed in the early twentieth century and highlights New York's Congregation Kehilath Jeshurun as a pioneering Modern Orthodox synagogue. Ferziger also considers the nuances of American Orthodoxy as reflected in Soviet Jewish activism during the 1960s and early 1970s and educational trips to Poland taken by American Orthodox young adults studying in Israel, and explores the responses of prominent rabbinical authorities to Orthodox feminism and its call for expanded public religious roles for women. Considerable discussion is dedicated to the emergence of outreach to nonobservant Jews as a central priority for Haredi Orthodoxy and how this focus outside its core population reflects fundamental changes. In this context, Ferziger presents evidence for the growing influence of Chabad Hasidism – what he terms the “Chabadization of American Orthodoxy.” Recent studies, including the 2013 Pew Survey of U.S. Jewry, demonstrate that an active and strongly connected American Orthodox Jewish population is poised to grow in the coming decades. Jewish studies scholars and readers interested in history, sociology, and religion will appreciate Ferziger’s reappraisal of this important group.
