In 1965 social scientist

Charles S. Liebman

published a study that

boldly declared the vitality

of American Jewish

Orthodoxy and went on to

guide scholarly

investigations of the group

for the next four decades.

As American Orthodoxy

continues to grow in

geographical, institutional,

and political strength, author

Adam S. Ferziger argues in

Beyond Sectarianism: The

Realignment of American

Orthodox Judaism that one

of Liebman's principal

definitions needs to be

updated. While Liebman

proposed that the

“committed Orthodox”

—observant rather than

nominally affiliated—could

be divided into two main

streams: “church,” or

Modern Orthodoxy, and

“sectarian,” or Haredi

Orthodoxy, Ferziger traces a

narrowing of the gap

between them and ultimately

a realignment of American

Orthodox Judaism. Ferziger

shows that significant

elements within Haredi

Orthodoxy have abandoned

certain strict and seemingly

uncontested norms. He

begins by offering fresh

insight into the division

between the American sectarian Orthodox and Modern Orthodox streams that developed in the early twentieth century and highlights New York's Congregation Kehilath Jeshurun as a pioneering Modern Orthodox synagogue. Ferziger also considers the nuances of American Orthodoxy as reflected in Soviet Jewish activism during the 1960s and early 1970s and educational trips to Poland taken by American Orthodox young adults studying in Israel, and explores the responses of prominent rabbinical authorities to Orthodox feminism and its call for expanded public religious roles for women. Considerable discussion is dedicated to the emergence of outreach to nonobservant Jews as a central priority for

Haredi Orthodoxy and how this focus outside its core population reflects fundamental changes. In this context, Ferziger presents evidence for the growing influence of Chabad Hasidism – what he terms the “Chabadization of American Orthodoxy.” Recent studies, including the 2013 Pew Survey of U.S. Jewry, demonstrate that an active and strongly connected American Orthodox Jewish population is poised to grow in the coming decades. Jewish studies scholars and readers interested in history, sociology, and religion will appreciate Ferziger's reappraisal of this important group.

The results presented in this WSU publication serve as a general guide for evaluating the feasibility of producing potatoes in the Columbia Basin as of 2015, with a capital and machinery endowment suited to a 1,000-acre potato enterprise. This publication is not intended to be a definitive guide to production practices, but is helpful in estimating the physical and financial requirements of comparable plantings. To avoid drawing unwarranted conclusions for any

particular farm, readers must closely examine the assumptions made in this study, and then adjust the costs, returns, or both as appropriate for their operation.
