World War I Quid Pro Books

This volume in the Problems in European Civilization series presents the diversity of viewpoints held by the field' s most eminent historians. The editor accompanies the essays and documents with his own essay, providing historical context and insights on each problem discussed.

A World Undone Bloomsbury Publishing USA

This text scrutinizes the motives, actions, and constraints that informed decision making by the various politicians who bore the principal responsibility for drafting the Treaty of Versailles.

The Harlem Hellfighters Arcturus Publishing

In 1916, in an exchange of human flesh for war material, the Russian government sent to France two brigades to fight on the side of their French allies. By the end of World War I, these two brigades had experienced their own form of the Russian Revolution, had been isolated at a southern training post in a discipline move by the French government, had battled against each other in what was one of the first confrontations of the Russian Civil War, and had emerged from the conflict as a single force, the Russian Legion of Honor, which would remain loyal to

France until the end of the war. The remarkable story of these Russian soldiers has been overlooked by historians until now. Jamie Cockfield here explores the journey and transformation of these men, and in so doing, he examines the impact of the revolution on the Russians who were caught in the middle of wartime alliances and nationalist ardor.

The Causes of World War I Cambridge University Press

Each book looks at an event that changed our world, with in-depth information about the event, those involved, and the issues at stake at the time, as well as the aftermath and consequences.

With Snow on Their Boots Oxford University Press, USA

When war broke out in Europe in 1914, it surprised a European population enjoying the most beautiful summer in memory. For nearly a century since, historians have debated the causes of the war. Some have cited the assassination of Archduke Franz Ferdinand; others have concluded it was unavoidable. In *Europe's Last Summer*, David Fromkin provides a different answer: hostilities were commenced deliberately. In a riveting re-creation of the run-up to war, Fromkin shows how German generals, seeing war as inevitable, manipulated events to precipitate a conflict waged on their own terms. Moving deftly between diplomats, generals, and rulers across Europe, he makes the complex diplomatic negotiations accessible and immediate. Examining the actions of individuals amid larger historical forces, this is a gripping historical narrative and a dramatic reassessment of a key moment in the twentieth-century.

The Next Great War? Efalon Acies

This is an illustrated "graphic history" based on an 1876 court transcript of a West African woman named Abina, who was wrongfully enslaved and took her case to

court. The main scenes of the story take place in the courtroom, where Abina strives to convince a series of "important men"--A British judge, two Euro-African attorneys, a wealthy African country "gentleman," and a jury of local leaders --that her rights matter.--Publisher description.

The Fourteen Points Speech New York : W. W. Norton

The Spirit of 1914 Cambridge University Press
NEW YORK TIMES BESTSELLER • Drawing on exhaustive research, this intimate account details how World War I reduced Europe's mightiest empires to rubble, killed twenty million people, and cracked the foundations of our modern world "Thundering, magnificent . . . [A World Undone] is a book of true greatness that prompts moments of sheer joy and pleasure. . . . It will earn generations of admirers." —The Washington Times On a summer day in 1914, a nineteen-year-old Serbian nationalist gunned down Archduke Franz Ferdinand in Sarajevo. While the world slumbered, monumental forces were shaken. In less than a month, a combination of ambition, deceit,

fear, jealousy, missed opportunities, and miscalculation sent Austro-Hungarian troops marching into Serbia, German troops streaming toward Paris, and a vast Russian army into war, with England as its ally. As crowds cheered their armies on, no one could guess what lay ahead in the First World War: four long years of slaughter, physical and moral exhaustion, and the near collapse of a civilization that until 1914 had dominated the globe. Praise for *A World Undone* “ Meyer ’ s sketches of the British Cabinet, the Russian Empire, the aging Austro-Hungarian Empire . . . are lifelike and plausible. His account of the tragic folly of Gallipoli is masterful. . . . [A World Undone] has an instructive value that can scarcely be measured ” —Los Angeles Times “ An original and very readable account of one of the most significant and often misunderstood events of the last century. ” —Steve Gillon, resident historian, The History Channel

World War 1 Independently Published

From bestselling author Max Brooks, the riveting story of the highly decorated, barrier-breaking, historic black regiment—the Harlem Hellfighters In 1919, the 369th infantry regiment marched home triumphantly from World War I. They had spent more time in combat than any other American unit, never losing a foot of ground to the enemy, or a man to capture, and winning countless decorations. Though they returned as heroes, this African American unit faced tremendous discrimination, even from their own government. The Harlem Hellfighters, as the Germans called them, fought courageously on—and off—the battlefield to make Europe, and America, safe for democracy. In *THE HARLEM HELLFIGHTERS*, bestselling author Max Brooks and acclaimed illustrator Caanan White bring this history to life. From the enlistment lines in Harlem to the training camp at Spartanburg, South Carolina, to the trenches in France, they tell the heroic story of the 369th in an action-packed and

powerful tale of honor and heart.

The Road to Verdun Vintage
NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • The Economist • The Christian Science Monitor • Bloomberg Businessweek • The Globe and Mail From the bestselling and award-winning author of *Paris 1919* comes a masterpiece of narrative nonfiction, a fascinating portrait of Europe from 1900 up to the outbreak of World War I. The century since the end of the Napoleonic wars had been the most peaceful era Europe had known since the fall of the Roman Empire. In the first years of the twentieth century, Europe believed it was marching to a golden, happy, and prosperous future. But instead, complex personalities and rivalries, colonialism and ethnic nationalisms, and shifting alliances helped to bring about the failure of the long peace and the outbreak of a war that transformed Europe and the world. *The War That Ended Peace* brings vividly to life the military leaders, politicians, diplomats, bankers, and the extended, interrelated family of crowned heads across Europe who failed to stop the descent into war: in Germany, the mercurial Kaiser Wilhelm II and the chief of the German general staff, Von Moltke the Younger; in Austria-Hungary, Emperor Franz Joseph, a man who tried, through sheer hard work, to stave off the coming chaos in his empire; in Russia, Tsar Nicholas II and his wife; in Britain, King Edward VII, Prime Minister Herbert Asquith, and British admiral Jacky Fisher, the fierce advocate of naval reform who entered into the arms race with Germany that pushed the continent toward confrontation on land and sea. There are the would-be peacemakers as well, among them prophets of the horrors of future wars whose warnings went unheeded: Alfred Nobel, who donated his fortune to the cause of international understanding, and Bertha von Suttner, a writer and activist who was the first woman awarded Nobel ’ s new Peace Prize. Here too we meet the urbane and cosmopolitan Count Harry Kessler, who noticed many of the early signs that something was stirring in Europe; the young Winston Churchill, then First Lord of the Admiralty and a rising figure in British politics; Madame Caillaux, who shot a man who might have been a force for peace; and more. With indelible portraits,

MacMillan shows how the fateful decisions of a few powerful people changed the course of history.

Taut, suspenseful, and impossible to put down, *The War That Ended Peace* is also a wise cautionary reminder of how wars happen in spite of the near-universal desire to keep the peace. Destined to become a classic in the tradition of Barbara Tuchman's *The Guns of August*, *The War That Ended Peace* enriches our understanding of one of the defining periods and events of the twentieth century. Praise for *The War That Ended Peace*

"Magnificent . . . *The War That Ended Peace* will certainly rank among the best books of the centennial crop." —*The Economist*

"Superb." —*The New York Times Book Review*

"Masterly . . . marvelous . . . Those looking to understand why World War I happened will have a hard time finding a better place to start." —*The Christian Science Monitor*

"The debate over the war's origins has raged for years. Ms. MacMillan's explanation goes straight to the heart of political fallibility. . . . Elegantly written, with wonderful character sketches of the key players, this is a book to be treasured." —*The Wall Street Journal*

"A magisterial 600-page panorama." —Christopher Clark, *London Review of Books*

"The debate over the war's origins has raged for years. Ms. MacMillan's explanation goes straight to the heart of political fallibility. . . . Elegantly written, with wonderful character sketches of the key players, this is a book to be treasured." —*The Wall Street Journal*

World History Palgrave Macmillan

Explores key topics involving World War I and shows the causes that led up to the outbreak of war, including France's defeat in the Franco-Prussian War, the assassination of Franz Ferdinand, the heir to the Austro-Hungarian throne, and Germany's attack on France. *Germany's Aims in the First World War* Glagoslav Publications

Think you know about British history and the causes of the First World War? Think again. This fascinating and gripping study of events at the turn of the Twentieth Century is a remarkable insight into how political and social factors that we widely accept to be the causes of The Great War, were really just a construct put together by a very small, but powerful, political elite... 'Thought-provoking . . . Docherty and Macgregor do not mince their words . . . their arguments are powerful' -- Britain at War 'Simply astonishing' -- ***** Reader review 'Very illuminating' -- ***** Reader review 'You

simply MUST read this book' -- ***** Reader review 'This is a page-turner' -- ***** Reader review *****

***** Hidden History uniquely exposes those responsible for the First World War. It reveals how accounts of the war's origins have been deliberately falsified to conceal the guilt of the secret cabal of very rich and powerful men in London responsible for the most heinous crime perpetrated on humanity. For ten years, they plotted the destruction of Germany as the first stage of their plan to take control of the world. The assassination of Archduke Franz Ferdinand was no chance happening. It lit a fuse that had been carefully set through a chain of command stretching from Sarajevo through Belgrade and St Petersburg to that cabal in London. Our understanding of these events has been firmly trapped in a web of falsehood and duplicity carefully constructed by the victors at Versailles in 1919 and maintained by compliant historians ever since. The official version is fatally flawed, warped by the volume of evidence they destroyed or concealed from public view. *Hidden History* poses a tantalising challenge. The authors ask only that you examine the evidence they lay before you . . . The Outbreak of World War I Sourcebooks, Inc. This Squid Ink Classic includes the full text of the work plus MLA style citations for scholarly secondary sources, peer-reviewed journal articles and critical essays for when your teacher requires extra resources in MLA format for your research paper.

Causes Of World War I Random House

This true contemporary account of an American nurse's horrific and sometimes bizarre experiences while serving at a French battlefield hospital near Soissons during World War I has poignant layers which even the often naive author did not see. "As our camion drove through the chateau gate we could see that the grounds were covered with what looked like sleeping men." That is just her own introduction to the unit, housed in what was once a country estate, and soon she was standing hours on end treating friend and enemy alike, facing harrowing hyperreality with aplomb. Shirley Millard is throughout a willing

reporter of her fascinating perspective on war, youth, loss, and love -- and always slapdash surgery and gallows camaraderie, inside a MASH unit before there was M*A*S*H. And before antibiotics, it is painfully clear. But she is also an unwitting reporter of so much more. The modern reader sees truths and wrongs that Shirley fails to experience herself, some at the time and too many upon rested reflection. Even some of the pronouns she uses reveal herself and the understory more than she ever realized. The book compels attention not only on the level on which she wrote it, which would be enough to bring crashing home this forgotten war, but also on levels hidden to her. Either way the insights pierce through, as when the young French doctor sums up war: "La gloire, la gloire! Bah! C'est de la merde!" He is a hero too, but has his own incongruous scenes later, just in his smoking habits alone. This collection of diary entries and later flashbacks may be the second greatest personal account of World War I, behind that by the much more self-aware Erich Remarque (though readers here may find themselves drawn into the lack of awareness as much as the account itself). Yet this book seems to have been lost in time and the crush of later events. As Time reviewed it in 1936, "Spare, simply written diary of a young, red-haired U.S. volunteer nurse in French hospitals near the front lines of 1918, in which romantic interludes heighten rather than ease a grisly atmosphere." It is that, but there is a lot more to it. And much of the writing is deeper than that, and certainly crisp and evocative in prose, even if some of the depth is more for the reader than the author. Includes penetrating new Foreword by law professor Elizabeth Townsend Gard, who studied the genre as part of her Ph.D. research in History at UCLA. The original book, and its incongruities and twists revealed by Townsend Gard, will stick with you. Previously only available as a rare book, now returned to its place in poignant history. This book, though listed as "trade" or could be read by college

adults, will have as its principal audience the general reader and young adults. It would be an excellent, fairly brief book to assign to classes in High School and possibly Middle School. Although some of its scenes are stark and upsetting, and one would be cautioned to have YAs read it much as would be true of the candor of *All Quiet on the Western Front*, it has no other aspects which would make it inappropriate for minors and allows excellent discussions of war, class, race, nationalism, medicine, unsung women in war, foreshadowing and subtext, and many other themes that the author herself did not mean to raise. In other words, since the writer speaks on one level, and does not realize the other levels she touches, it would help to develop readers' critical skills to share their opinions about what she is missing in her own text. And in the process there will be no concern that the book would be inappropriate for YAs except that some of the medical and casualty moments are, of course, brutal. Also available in ebook and digital formats.

Gas and Flame in World War I Daniel Turner The catastrophe of the First World War, and the destruction, revolution, and enduring hostilities it wrought, make the issue of its origins a perennial puzzle. Since World War II, Germany has been viewed as the primary culprit. Now, in a major reinterpretation of the conflict, Sean McMeekin rejects the standard notions of the war's beginning as either a Germano-Austrian preemptive strike or a "tragedy of miscalculation." Instead, he proposes that the key to the outbreak of violence lies in St. Petersburg. It was Russian statesmen who unleashed the war through conscious policy decisions based on imperial ambitions in the Near East. Unlike their civilian counterparts in Berlin, who would have preferred to localize the Austro-Serbian conflict, Russian leaders desired a more general war so long as British participation was assured. The war of 1914 was launched at a propitious moment for harnessing the might of Britain and France to neutralize the German threat to Russia's goal: partitioning the Ottoman Empire to ensure control

of the Straits between the Black Sea and the Mediterranean. Nearly a century has passed since the guns fell silent on the western front. But in the lands of the former Ottoman Empire, World War I smolders still. Sunnis and Shiites, Arabs and Jews, and other regional antagonists continue fighting over the last scraps of the Ottoman inheritance. As we seek to make sense of these conflicts, McMeekin's powerful exposé of Russia's aims in the First World War will illuminate our understanding of the twentieth century.

Europe's Last Summer Anchor

James Joll's study is not simply another narrative, retracing the powder trail that was finally ignited at Sarajevo. It is an ambitious and wide-ranging analysis of the historical forces at work in the Europe of 1914, and the very different ways in which historians have subsequently attempted to understand them. The importance of the theme, the breadth and sympathy of James Joll's scholarship, and the clarity of his exposition, have all contributed to the spectacular success of the book since its first appearance in 1984. Revised by Gordon Martel, this new 3rd edition accommodates recent research and an expanded further reading section.

World War I: Background and Causes Gr.

5-8 Boston : Houghton Mifflin Company

The horrors of the First World War released a great outburst of emotional poetry from the soldiers who fought in it as well as many other giants of world literature. Wilfred Owen, Rupert Brooke and W B Yeats are just some of the poets whose work is featured in this anthology. The raw emotion unleashed in these poems still has the power to move readers today. As well as poems detailing the miseries of war there are poems on themes of bravery, friendship and loyalty, and this collection shows how even in the depths of despair the human spirit can still triumph.

The Assassination of Archduke Franz Ferdinand Basic Books

Discusses and examines the possible causes of World War I.

War and Punishment Raintree

This book, first published in 2000, is a systematic analysis of German public opinion at the outbreak of the Great War and the first treatment of the myth of the 'spirit of 1914', which stated that in August 1914 all Germans felt 'war enthusiasm' and that this enthusiasm constituted a critical moment in which German society was transformed. Jeffrey Verhey's powerful study demonstrates that the myth was historically inaccurate. Although intellectuals and much of the upper class were enthusiastic, the emotions and opinions of most of the population were far more complex and contradictory. The book further examines the development of the myth in newspapers, politics and propaganda, and the propagation and appropriation of this myth after the war. His innovative analysis sheds light on German experience of the Great War and on the role of political myths in modern German political culture.
