ORIGINAL BOOK  
The Rifle is an  
inspirational story  
and hero's journey of  
a 28-year-old U.S.  
Marine, Andrew  
Biggio, who returned  
home from combat in  
Afghanistan and Iraq,  
full of questions about  
the price of war. He  
found answers from  
those who survived  
the costliest war of all  
-- WWII veterans. It  
began when Biggio

bought a 1945 M1  
Garand Rifle, the  
most common rifle  
used in WWII, to  
honor his great uncle,  
a U.S. Army soldier  
who died on the hills  
of the Italian  
countryside. When  
Biggio showed the  
gun to his neighbor,  
WWII veteran  
Corporal Joseph  
Drago, it unlocked  
memories Drago had  
kept unspoken for 50  
years. On the spur of  
the moment, Biggio  
asked Drago to sign  
the rifle. Thus began  
this Marine's mission  
to find as many WWII  
veterans as he could,  
get their signatures on  
the rifle, and  
document their  
stories. For two years,  
Biggio traveled across  
the country to  
interview America's  
last-living WWII  
veterans. Each time  
he put the M1

Garand Rifle in their  
hands, their eyes lit up  
with memories  
triggered by holding  
the weapon that had  
been with them every  
step of the war. With  
each visit and every  
story told to Biggio,  
the veterans signed

and controversy, and it has since been recognized as a classic: the first book ever to examine exclusively and in depth the causes of the Second World War and to apportion the responsibility among Allies and Germans alike. With crisp, clear prose and brilliant analysis, Taylor established that the war, "far from being premeditated, was a mistake, the result on both sides of diplomatic blunders." He argued that Hitler was more an opportunist than an ideologue who owed his successes to Great Britain's and France's tacking between resistance and appeasement, and to an American policy akin to "the significant episode of the dog in the night, to which Sherlock Holmes once drew attention. When Watson objected: 'But the dog did nothing in the night,' Holmes answered: 'That was the significant episode.'" The Times Literary Supplement called The Origins of the Second World War "simple, devastating, superlatively readable, and deeply disturbing," and it remains so now—a groundbreaking book of enduring importance.

Teaching Social Studies Today 2nd Edition  
Cambridge University Press  
This book shows how principles of self-regulated learning are being implemented in secondary classrooms. The 14 chapters are theoretically driven and supported by empirical research and address all common high school content areas. The book comprises 29 lesson plans in English language arts, natural and physical sciences, social studies, mathematics,

foreign language, art, music, health, and physical education. Additionally, the chapters address students with special needs, technology, and homework. Each chapter begins with one or more lesson plans written by master teachers, followed by narratives explaining how the lesson plans were implemented. The chapters conclude with an analysis written by expert researchers of the self-regulated learning elements in the lessons. Each lesson and each analysis

incorporate relevant educational standards for that area. Different types of high schools in several states serve as venues. This powerful new book edited by Maria K. DiBenedetto provides a unique and invaluable resource for both secondary teachers and researchers committed to supporting adolescents in the development of academic self-regulation. Each chapter is jointly written by teachers who provide a wealth of materials,

---

including lesson plans, and researchers who situate these lesson plans and academic self-regulation goals within the larger work on self-regulation. The topics covered are far broader than any other book I have seen in terms of developing academic self-regulation, covering over a dozen content areas, including literacy, mathematics, social studies, the sciences, and the arts. Teachers and scholars alike will find this book a must read. Karen

Harris, EdD, Arizona State University A practical and magnificent blend of educational research and application. This book goes beyond presenting the findings of research on self regulation by connecting detailed strategies that align with the standards to the research. DiBenedetto et al. clearly illustrate how to develop self regulated learners in the classroom. A refreshing must read for all secondary educators and educational

researchers seeking to be well grounded in education research and practical application techniques. Heather Brookman, PhD, Fusion Academy-Park Avenue Self-regulated learning is a research-based process by which teachers help students realize their own role in the learning process. Connecting Self-Regulated Learning and Performance with Instruction Across High School Content Areas consists of model teachers ' lessons

and analyses by prominent educational psychologists in the field of self-regulated learning. The book provides teachers with the tools needed to increase students' awareness of learning and inspires all educators to use self-regulated learning to promote engagement, motivation, and achievement in their students. The book also provides administrators with the principles needed to infuse evidenced based self-regulated learning into their curriculum and instruction. I highly recommend the book! GED Test Prep Plus 2020.  
The Story of World War II Simon and Schuster  
I would have climbed up a mountain to get on the list [to serve overseas]. We were going to do our duty. Despite all the bad things that happened, America was our home. This is where I was born. It was where my mother and father were. There was a feeling of wanting to do your part. --Gladys Carter, member of the 6888th Central Postal Directory, To Serve My Country, to Serve my Race is the story of the historic 6888th, the first United States Women's Army Corps unit composed of African-American women to serve overseas. While African-American

men and white women were invited, if belatedly, to serve their country abroad, African-American women were excluded for overseas duty throughout most of WWII. Under the political pressure from legislators like Adam Clayton Powell, Jr., the NAACP, the black press, and even President Roosevelt, the U.S. War Department was forced to deploy African-American women to the European theater in 1945. African-American women, having succeeded, through their own activism and political ties, in their quest to shape their own lives, answered the call from all over the country, from every socioeconomic stratum. Stationed in France and England at the end of World War II, the 6888th Central Postal Directory brought together women like Mary Daniel Williams, a cook in the 6888th who signed up for the Army to escape the slums of Cleveland and to improve her ninth-grade education, and Margaret Barnes Jones, a public relations officer of the 6888th, who grew up in a comfortable household with a politically active mother who encouraged her to challenge the system. Despite the social, political, and economic restrictions imposed upon these African-American women in their own country, they were eager to serve, not only out of patriotism but out of a desire to uplift their race and dispell bigoted preconceptions about their abilities. Elaine Bennett, a First Sergeant in the 6888th, joined because "I wanted to prove to myself and maybe to the world that we would give what we had back to the United States as a confirmation that we were full-fledged citizens." Filled with compelling personal testimony based on extensive interviews, *To Serve My Country* is the first book to document the lives of these courageous pioneers. It reveals how their Army experience affected them for the rest of their lives and how they, in turn, transformed the U.S. military forever.

Points of the Rifle  
Vintage  
The New York Times  
bestselling account of  
one of history's most  
brutal -- and  
forgotten --  
massacres, when the

Japanese army  
destroyed China's  
capital city on the eve  
of World War II In  
December 1937, one  
of the most horrific  
atrocities in the long  
annals of wartime  
barbarity occurred.  
The Japanese army  
swept into the ancient  
city of Nanking (what  
was then the capital of  
China), and within  
weeks, more than  
300,000 Chinese  
civilians and soldiers  
were systematically  
raped, tortured, and  
murdered. In this  
seminal work, Iris  
Chang, whose own  
grandparents barely  
escaped the massacre,  
tells this history from  
three perspectives:  
that of the Japanese  
soldiers, that of the  
Chinese, and that of a  
group of Westerners  
who refused to  
abandon the city and  
created a safety zone,

which saved almost  
300,000 Chinese.  
Drawing on extensive  
interviews with  
survivors and  
documents brought to  
light for the first time,  
Iris Chang's classic  
book is the definitive  
history of this  
horrifying episode.
