Enterprises Incorporated

This must-read for lovers of Stephen King's *The Shining* will leave readers breathless as Seda and her family find

themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside

world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

A soup-to-nuts  
introduction to  
small, economical  
sailing craft Trailer  
sailers--the  
smallest, most  
economical sailboats  
with sleeping

accommodations--are a  
popular platform for  
learning the basics  
of sailing and are  
often considered to  
be the entry level to  
cruising under sail.

Author Brian Gilbert  
shows how trailer  
sailers can be the  
ideal craft for a  
lifetime of  
enjoyment, including  
serious, long-  
distance cruising.

This book covers all  
the bases, including  
how to inspect, buy,  
and equip a boat; how

to trailer, sail,  
navigate, and cruise  
in small boats; how  
to use communications  
and navigation  
equipment; and more.

peak performance!  
Electric Motor  
Maintenance and  
Troubleshooting,  
Second Edition  
explains in detail  
how all types of AC  
and DC motors work.  
Essential for  
anyone who needs to  
buy, install,  
troubleshoot,  
maintain, or repair  
small to industrial-  
size electric  
motors, this  
practical guide  
contains new

information on three-  
phase motors along  
with coverage of  
the latest test  
instruments.  
Drawing on his more  
than 40 years of  
experience working  
with electric  
motors, expert  
author Augie Hand  
provides a wealth  
of tested  
procedures to  
pinpoint and  
correct any kind of  
issue. He'll help  
you decide whether

to replace a motor,  
take it offline for  
repair, or repair  
it in  
place--decisions  
that can reduce  
down time. End-of-  
chapter questions  
reinforce the  
material covered in  
the book. Quickly  
and accurately  
diagnose electric  
motor problems and  
find effective  
solutions with help  
from this fully  
updated classic.

updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system

overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting

problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
