Pests and diseases inflict a devastating impact on the quantity and quality of food production. Pesticides play a vital role in crop protection, although their excessive use poses a potential health hazard and a threat to food security and human and environmental safety. This book overviews developments on pesticides and pests that are relevant to agriculture in the Indian sub-continent, Asia and the world at large. These topics impact free world trade both directly and indirectly. The volume brings together the latest information about chemical, botanical, biorational pesticides and bioagents, international specifications for pesticide formulations, pesticide-environment interaction, and amendments to prevent leaching losses of pesticides in soil, among other topics. The issues of pest resistance, herbicide resistant or tolerant crops, and the changing global climate are also addressed. This book is a valuable collection of chapters that will serve as a reference point for students, scientists, policy-makers and other stakeholders interested in pesticides and pest control.

In the United States, the general rule, which derives from common law, is that each side in a legal proceeding pays for its own attorney. There are many exceptions, however, in which federal courts, and occasionally federal agencies, may order the losing party to pay the attorneys' fees of the prevailing party. The major common law exception authorises federal courts (not agencies) to order a losing party that acts in bad faith to pay the prevailing party's fees. There are also roughly two hundred statutory exceptions, which were

generally enacted to encourage private litigation to implement public policy. Awards of attorneys' fees are often designed to help to equalise contests between private individual plaintiffs and corporate or governmental defendants. Thus, attorneys' fees provisions are most often found in civil rights, environmental protection, and consumer protection statutes. In addition, the Equal Access to Justice Act (EAJA) makes the United States liable for attorneys' fees of up to \$125 per hour in many court cases and administrative proceedings that it loses (and some that it wins) and fails to prove that its position was substantially justified. EAJA does not apply in tax cases, but a similar statute, 26 U.S.C. § 7430, does. Most Supreme Court decisions involving attorneys' fees have interpreted civil rights statutes, and this book focuses on these statutes. It also discusses awards of costs other than attorneys' fees in federal courts, how courts compute the amount of attorneys' fees to be awarded, statutory limitations on attorneys' fees, and other subjects. In addition, it sets forth the language of all federal attorneys' fees provisions, and includes a bibliography of congressional committee reports and hearings concerning attorneys' fees. In 1997, Congress enacted a statute allowing awards of attorneys' fees to some prevailing criminal defendants.
