A Orbital (Chase Paymentech) gateway supports our standardized Stored Credential Data fields. However, we also allow a few gateway specific fields related to Stored Credentials to be specified, which will override the default Stored Credential Data fields. These fields are mit_msg_type, mit_stored_credential_ind, and mit_submitted_transaction_id.

Activiti runs on a JDK higher than or equal to version 7. Go to Oracle Java SE downloads and click on button "Download JDK". There are installation instructions on that page as well. To verify that your installation was successful, run java -version on the command line. That should print the installed version of your JDK.
