Biology for IGCSE Cambridge University Press

This clear and stimulating text has been revised to match the latest IGCSE syllabus exactly and provides all aspects of the IGCSE course in a single text. Straightforward language makes it accessible to students of all abilities. Each chapter contains a Biology Unit 2 for CAPE® Examinations Random House Digital, Inc.

The Checkpoint English series consists of three books and one CD. Together they form an incremental programme of work with clear goals aimed at raising standards in English. - Each book is divided into units that cover the key curriculum requirements of reading, writing, usage and speaking and listening. - The units have been arranged across the three years to establish, revisit and consolidate these skills. - The texts have been chosen for their quality and richness in classroom study. - Activities are designed to introduce pupils to the focus for the sequence of work and to engage their interest. - Within each unit, several pages are given to reinforcing new knowledge or skills in context. - Photocopiable pages contain activities where a more hands-on approach is suitable. - Usage sections focus attention on sentence structure, grammar, punctuation, spelling and vocabulary. - Progression is built into each unit of study and across the course as a whole. - Many of the units are free-standing, allowing the flexibility to link them with other units or with material the teacher has sourced from elsewhere. - The accompanying CD provides audio support where it is most helpful to pupils and this is clearly indicated within the text by the CD icon.

The Human Face of Big Data Cambridge University Press

In *Bathing in the Roman World*, Fikret Yegul examines the social and cultural aspects of one of the key Roman institutions. Guiding the reader through the customs, rituals, and activities associated with public bathing, Yegul traces the origins and development of baths and bathing customs and analyzes the sophisticated technology and architecture of bath complexes, which were among the most imposing of all Roman building

types. He also examines the reception of bathing throughout the classical world and the transformation of bathing culture across three continents in Byzantine and Christian societies. The volume concludes with an epilogue on bathing and cleanliness in post-classical Europe, revealing the changes and continuities in culture that have made public bathing a viable phenomenon even in the modern era. Richly illustrated and written in an accessible manner, this book is geared to undergraduates for use in courses on Roman architecture, archaeology, civilization, and social and cultural history.
