First published in 1951, Cherokee Cooklore introduces us to traditional Cherokee cooking. It starts with a photographic essay as Aggie

Lossiah demonstrates how she makes bean bread. This is followed by recipes gathered from the North Carolina Cherokee community (including yellowjacket soup, blood pudding, hominy corn drink, baked squirrel, and hickory nut soup). A description of Cherokee food customs follows. This is a fascinating booklet that provides valuable food lore for the adventuresome gourmet or the student of Native American history.

Lords of Rainbow Andrews McMeel Publishing

Recipient of the Independent Publishers Award for Historical Fiction (Gold Medal), the Foreword Book of the Year Award for Historical Fiction (Bronze Medal), and an honorable mention in the category of General Fiction for the Eric Hoffer Award. Luis de Santángel,

chancellor to the court and longtime friend of the lusty King Ferdinand, has had enough of the Spanish Inquisition. As the power of Inquisitor General Tomás de Torquemada grows, so does the brutality of the Spanish church and the suspicion and paranoia it inspires. When a dear friend's demise brings the violence close to home, Santángel is enraged and takes retribution into his own hands. But he is from a family of conversos, and his Jewish heritage makes him an easy target. As Santángel witnesses the horrific persecution of his loved ones, he begins slowly to reconnect with the Jewish faith his family left behind. Feeding his curiosity about his past is his growing love for

Judith Migdal, a clever and beautiful Jewish woman navigating the mounting tensions in Granada. While he struggles to decide what his reputation is worth and what he can sacrifice, one man offers him a chance he thought he'd lost...the chance to hope for a better world. Christopher Columbus has plans to discover a route to paradise, and only Luis de Santángel can help him. Within the dramatic story lies a subtle, insightful examination of the crisis of faith at the heart of the Spanish Inquisition. Irresolvable conflict rages within the conversos in *By Fire, By Water*, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith,

and torture, fifteenth-century Spain comes to dazzling, engrossing life.

Bad Love Strikes Grand Central Publishing

Practitioners often say: 'We need to do something differently but are not sure what to do or how to do it' and 'Scientists explain complexity but don't tell you what to do in practical terms'. This book has been written to offer solutions for these practitioners - to provide an

Approach for 'putting complexity to work'. Practice is, de facto, determined by changing contexts. In a specific instance, what needs doing will depend on the circumstances, and cannot be bounded or decided in advance. But when most auditors, donors or managers demand tangible, target-driven results within a fixed time frame, how can practitioners convince them that working with the open principles of complexity will lead to more successful and sustainable solutions? This book is not 'yet another' complexity book. What it offers is an in-depth, systematic, Framework that

practitioners can use to focus on the dynamic phenomena already active in their working context, to be able to shape and influence these phenomena 'on the fly'. The authors present six case studies, including the UK Fuel Crisis (2000) and the 2010 Gulf of Mexico Oil Spill. Their Approach reveals a clear understanding of the stresses and strains that were felt throughout the crises and how these might have been handled differently had an appreciation of the underlying complexity been part of standard practice. Drawn from their own experiences and those of other

practitioners, and to bridge the gap between theory, experience and practice, the authors have produced a clear and erudite 'bible' for realising the inherent benefits of 'putting complexity to work'.

Cherokee Cooklore: Preparing Cherokee Foods (Reprint Edition)
Wildside Press LLC
"An original study of Gauguin's writings, unfolding their central

role in his artistic practice and negotiation of colonial identity. As a French artist who lived in Polynesia, Paul Gauguin (1848-1903) occupies a crucial position in histories of European primitivism. This is the first book devoted to his wide-ranging literary output, which included journalism, travel writing, art criticism, and essays on aesthetics, religion, and politics. It analyzes his original manuscripts, some of which are richly illustrated, reinstating them as an integral component of his art. The seemingly haphazard, collage-like structure of Gauguin's manuscripts enabled him to evoke the "primitive" culture that he celebrated, while rejecting the style of establishment critics.

Gauguin's writing was also a strategy for articulating a position on the margins of both the colonial and the indigenous communities in Polynesia; he sought to protect Polynesian society from "civilization" but remained implicated in the imperialist culture that he denounced. This critical analysis of his writings significantly enriches our understanding of the complexities of artistic encounters in the French colonial context."--Publisher's description.

By Fire, By Water Yale University Press

Presenting more than two hundred of the greatest haiku ever written about the game. There are moments in every baseball game that make fans catch their breath: the pause while a pitcher looks in for the sign, the moment a cocksure rookie gets picked off first, or the instant a batter lashes a game-winning homer into the night sky, just before the sell-out crowd explodes onto its feet. Haiku captures these moments like no other poetic form, and Baseball Haiku captures the sights, the sounds, the smells, and the emotions of the game like no previous collection. Some of the most important haiku poets of both America and Japan are featured in this anthology; including Jack Kerouac, a longtime baseball fan who pioneered English-language haiku; Alan Pizzarelli, one of the top American haiku and senryu poets

of the last thirty years; and Masaoka Shiki, one of the four great pillars of Japanese haiku—a towering figure—who was instrumental in popularizing baseball in Japan during the 1890s. With over two hundred poems spanning more than a century of ball playing, *Baseball Haiku* reveals the intricate ways in which this enduring and indelible sport—which is played on a field, under an open sky—has always been linked to nature and the seasons. And just as a haiku happens in a timeless now, so too does *Baseball Haiku* evoke those unforgettable images that capture the actions and atmospheres of the national pastime: each poem resonates like the lonely sound of cleats echoing

in the tunnel as a grizzled veteran leaves his final game. The largest collection of haiku and senryu on baseball ever assembled, *Baseball Haiku* is an extraordinary treasure for any true baseball fan.

Illustrated guide to the crucial Italian philosopher and author of *The Prince*. 'Machiavellian' is a popular byword for treachery and opportunism. Machiavelli's classic book on statecraft, *The Prince*, published over 400 years ago, remains controversial to this day because of its electrifying frankness as a practical guide to power. Is it a how-to manual for dictators, a cynical philosophy of 'the end justifies the means', or a more complex and subtle analysis of successful

government? Machiavelli was a loyal servant of the Florentine republic. His opposition to Medici despotism led him to torture on the rack and exile, and yet he chose as his model for the Prince the most notorious tyrant, Cesare Borgia. Introducing Machiavelli traces the colourful life of this paradoxical realist whose clear-sighted patriotism made him the first truly modern political scientist. Machiavelli is seen as central to the postmodern debate on Civil Society. This book

brings the creative turbulence of a remarkable literary
of Renaissance Italy to life, and presents a compelling
portrait of a key figure of European political history.

What do craft books fail to teach aspiring writers about theme, about plot and subplot, about constructing point of view? How can we maintain drama on the level of the sentence—and explain drama in the sentences of others? What is the relationship of form and art? How do you make words live?
