Quit Like a Woman BRILL

25 years and over 1 million copies in print: An updated, repackaged edition of the bestselling divination tool and party favorite - ask a yes or no question, open the book, find your answer. Should you ask your boss for a raise? Call that cutie you met at a party? Sell your Google stock? Tell your best friend her boyfriend's cheating? The answer to these questions (and hundreds of others) is in this fun and weirdly wise little book that's impossible to put down. It's simple to use: just hold it closed in your hands and concentrate on your question for a few seconds. While visualizing or speaking your question, place one palm down on the book's front and stroke the edge of the pages back to front. When you sense the time is right, open to the page your fingers landed on and there is your answer! Fun, satisfying, and a lot less time-consuming than asking everyone you know for advice.

Algorithmic Decision Theory McGraw Hill Professional

The "definitive" (The New York Times) biography of film legend Bruce Lee, who made martial arts a global phenomenon, bridged the divide between eastern and western cultures, and smashed long-held stereotypes of Asians and Asian-Americans. Forty-five years after Bruce Lee's sudden death at age thirty-two, journalist and bestselling author Matthew Polly has written the definitive account of Lee's life. It's also one of the only accounts; incredibly, there has never been an authoritative biography of Lee. Following a decade of research that included conducting more than one hundred interviews with Lee's family, friends, business associates, and even the actress in whose bed Lee died, Polly has constructed a complex, humane portrait of the icon. Polly explores Lee's early years as a child star in Hong Kong cinema; his actor father's struggles with opium addiction and how that turned Bruce into a troublemaking teenager who was kicked out of high school and eventually sent to America to shape up; his beginnings as a martial arts teacher, eventually becoming personal instructor to movie stars like James Coburn and Steve McQueen; his struggles as an Asian-American actor in Hollywood and frustration seeing role after role he auditioned for go to a white actors in eye makeup; his eventual triumph as a leading man; his challenges juggling a sky-rocketing career with his duties as a father and husband; and his shocking end that to this day is still shrouded in mystery. Polly breaks down the myths surrounding Bruce Lee and argues that, contrary to popular belief, he was an ambitious actor who was obsessed with the martial arts—not a kung-fu guru who just so happened to make a couple of movies. This is an honest, revealing look at an impressive yet imperfect man whose personal story was even more entertaining and inspiring than any fictional role he played onscreen.

The Canadian Alternative Springer

The Stanford Geostatistical Modeling Software (SGeMS) is an open-source computer package for solving problems involving

spatially related variables. It provides geostatistics practitioners with a user-friendly interface, an interactive 3-D visualization, and a wide selection of algorithms. This practical book provides a step-by-step guide to using SGeMS algorithms. It explains the underlying theory, demonstrates their implementation, discusses their potential limitations, and helps the user make an informed decision about the choice of one algorithm over another. Users can complete complex tasks using the embedded scripting language, and new algorithms can be developed and integrated through the SGeMS plug-in mechanism. SGeMS was the first software to provide algorithms for multiple-point statistics, and the book presents a discussion of the corresponding theory and applications. Incorporating the full SGeMS software (now available from www.cambridge.org/9781107403246), this book is a useful user-guide for Earth Science graduates and researchers, as well as practitioners of environmental mining and petroleum engineering.

Global Entertainment Media Dial Press

For the first time, the final years of one of the world's most captivating rock showman are laid bare. Including interviews from Freddie Mercury's closest friends in the last years of his life, along with personal photographs, *Somebody to Love* is an authoritative biography of the great man. Here are previously unknown and startling facts about the singer and his life, moving detail on his lifelong search for love and personal fulfilment, and of course his tragic contraction of a then killer disease in the mid-1980s. Woven throughout Freddie's life is the shocking story of how the HIV virus came to hold the world in its grip, was cruelly labelled 'The Gay Plague' and the unwitting few who indirectly infected thousands of men, women and children - Freddie Mercury himself being one of the most famous. The death of this vibrant and spectacularly talented rock star, shook the world of medicine as well as the world of music. *Somebody to Love* finally puts the record straight and pays detailed tribute to the man himself.

Hachette UK

Educational resource for teachers, parents and kids!

Teens in the Philippines John Wiley & Sons
A critical cultural materialist introduction to the study of global entertainment media. In *Global Entertainment Media*, Tanner Mirrlees undertakes an analysis of the ownership, production, distribution, marketing, exhibition and consumption of global films and television shows, with an eye to political economy and cultural studies. Among other topics, Mirrlees examines: Paradigms of global entertainment media such as cultural imperialism and cultural globalization. The business of entertainment media: the structure of capitalist culture/creative industries (financers,

producers, distributors and exhibitors) and trends in the global political economy of entertainment media. The "governance" of global entertainment media: state and inter-state media and cultural policies and regulations that govern the production, distribution and exhibition of entertainment media and enable or impede its cross-border flow. The new international division of cultural labor (NICL): the cross-border production of entertainment by cultural workers in asymmetrically interdependent media capitals, and economic and cultural concerns surrounding runaway productions and co-productions. The economic motivations and textual design features of globally popular entertainment forms such as blockbuster event films, TV formats, glocalised lifestyle brands and synergistic media. The cross-cultural reception and effects of TV shows and films. The World Wide Web, digitization and convergence culture.

Al Rashid Mosque Lyndon Maither

In an urgent follow-up to his best-selling *Why Your World Is About To Get A Whole Lot Smaller*, Jeff Rubin argues that the end of cheap oil means the end of growth. What it will be like to live in a world where growth is over? Economist and resource analyst Jeff Rubin is certain that the world's governments are getting it wrong. Instead of moving us toward economic recovery, measures being taken around the globe right now are digging us into a deeper hole. Both politicians and economists are missing the fact that the real engine of economic growth has always been cheap, abundant fuel and resources. But that era is over. The end of cheap oil, Rubin argues, signals the end of growth—and the end of easy answers to renewing prosperity. Rubin's own equation is clear: with China and India sucking up the lion's share of the world's ever more limited resources, the rest of us will have to make do with less. But is this all bad? Can less actually be more? Rubin points out that there is no research to show that people living in countries with hard-charging economies are happier, and plenty of research to show that some of the most contented people on the planet live in places with no-growth or slow-growth GDPs. But it doesn't matter whether it's bad or good, it's the new reality: our world is not

only about to get smaller, our day-to-day lives are about to be a whole lot different.

The Information Professional's Guide to Career Development Online McGraw-Hill Ryerson

A New York Times bestseller! The celebrated Fox News star and #1 New York Times bestselling author offers a powerful, uplifting look at her life and her spiritual journey, reflecting on her family, her faith, and her successful career. In her bestselling children's book *Take Heart, My Child*, Ainsley Earhardt drew on her childhood and the inspirational notes her father wrote her before school each morning. In this moving memoir, she reminisces about growing up with a father who loved his children unconditionally—a cherished model of parenthood she has adopted with her own daughter—how her Christian faith has shaped her life, and the dynamic journalism career that has made her a trusted household name. From her insightful political coverage, including a sit-down with Melania Trump, to her powerful reporting covering some of the most headline-making national events, to her live coverage, including Pope Francis' visit to New York, Ainsley considers her career and the factors that have propelled her to the top of her field, becoming a cohost of *Fox & Friends* and contributor to *Hannity*. Ainsley credits her success to the values she learned from her parents, and to the enduring Christian faith that has been her ballast through thick and thin, in good times and in periods of great difficulty. Filled with inspirational quotes taken from Scripture and illustrated with sixteen pages of never-before-seen photos, her memoir is infused with her spiritual beliefs and will touch the hearts of all her fans, reminding them to count the blessings God has given them every day of their lives.
