No one can't deny the importance and usefulness of forklifts in our factories or workshops. It helps us move stuffs around in an easy manner. But watch out for the risks of misusing this kind of machine. In this book, let's follow the author through some basic safe operating procedures. Approximately 100,000 accidents and multiple fatalities involving forklifts occur every year. Almost 2/3 of all forklifts will be involved in some type of accident during their 8-year service lifetimes. Driving a forklift can be very dangerous for untrained workers. Only trained and authorized forklift drivers should operate a forklift
