This introductory, comprehensive text of audio practices is for both production and post-production sound. It emphasizes the importance of recording the sound properly on the set and also explains the post-production audio process as a creative collaboration that enhances the story and is not merely a "fix" for various audio problems. This book guides readers through a series of exercises to better understand the relationships between the gear and practices required for optimal recordings and mixes. Rather than merely explain the concepts of sound wave propagation, the electronics of how sound is recorded, or the acoustics of sound reverberation in spaces, these exercises are designed to demonstrate and reinforce these crucial ideas. This systematic approach from simple recording through sound editing and mixing gives aspiring sound technicians valuable hands/ears-on experience so they can achieve the same professional quality as those working in the industry!

Für jemand, der es ernst meint mit der Rockmusik, gibt es gewiss nichts Schöneres, als in einer Band zu musizieren. Gemeinsam ist man stark. Es ist jedoch schwer, der Vielfalt der Anfangsprob-leme, die das Musizieren in Bands mit sich bringt, Herr zu werden. Dabei muss man deutlich feststellen, dass es zu allen in diesem Werk vertretenen Teilbereichen eine Fülle von weitergehender Literatur gibt. Wegen der umfassenden Themenstellung ist es hier tatsächlich nur möglich, An-stöße zu geben. Dennoch ist gerade eine solche breitgefächerte "Erste Hilfe" besonders wichtig. Allein auf dem Gebiet der Anlagentechnik herrscht gerade unter Neulingen nicht selten schiere Hilflosigkeit vor. Oder nehmen wir das Erlernen eines Instrumentes: Oft kann ein wenig Instrumenten-Kunde be-reits zu dem Wunsch führen, dieses Instrument auch lernen zu wollen. Und so ist dieses Buch auch gedacht: Als Nachschlagewerk, um bestimmten Sachverhalten auf die Spur zu kommen, als Schrift für die einzelnen Spezialgebiete, als erste einführende Anleitung, als Auslöser, mehr über eine Sache erfahren zu wollen, als Hinweisgeber, um mitreden zu können.
