Veloce Publishing Ltd

Nigel Bennett 's unique autobiography describes his life and career, from growing-up influenced by car design, to his education and the building of his 750 specials. He describes his work as Firestone Development Manager, recounting many tales of the outstanding designers and drivers of the period. Detailing his work in Formula 1, as a Team Lotus engineer, and then as Team Ensign designer, he also covers his Indycar designs at Theodore, Lola Cars and Penske Cars. Life after his retirement, his involvement in boat design and with modern F1 teams, are also recounted.

Alfa Romeo Giulia GT & GTA Veloce Publishing Ltd

How to blueprint any 4-cylinder, 4-stroke engine's short block for maximum performance and reliability. Covers choosing components, crank and rod bearings, pistons, camshafts and much more.

**The 4-Cylinder Engine Short Block High-Performance Manual** Haynes Manuals N. America, Incorporated

A completely reworked and much enlarged (by over 60 pages) book based on Des Hammill's much respected earlier work on how to get more power from the A-Series engine. The complete practical guide to modifying the 1275cc A-Series engine for high-performance with reliability, and without wasting money on parts or modifications that don't work. Explains how many original components - sometimes modified - can be used in high-performance applications.

Mastering the Nikon D810 by Darrell Young provides a wealth of experience-

---

based information and insights for owners of the new D810 camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful professional camera equipment. This book explores the features and capabilities of the camera in a way that far surpasses the user's manual. It guides readers through the camera features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option. Every button, dial, switch, and menu configuration setting is explored in a user-friendly manner, with suggestions for setup according to various shooting styles. Darrell's friendly and informative

writing style allows readers to easily follow directions, while feeling as if a friend dropped in to share his knowledge. The information in this book goes beyond the camera itself and also covers basic photography technique.

**The Competition Car Data Logging Manual** Veloce Publishing Ltd

A step-by-step guide to building a Buggy, containing details of equipment and techniques, as well as guidance on the choice of donor car and new components. Build any VW-based Dune Buggy avoiding common pitfalls and expensive mistakes, ending up with a superb, roadworthy multi-purpose vehicle.

Yamaha Ultima Golf Car Service Manual Veloce Publishing Ltd

Covers the continued development

---

of short oval motor racing in the UK. At the top level of the sport, cars became more sophisticated and expensive, which led to the introduction of new classes to cater to drivers who no longer had the budget to compete at this level. Promoters continued to work with each other and there was a regular interchange of drivers across the country - not only at major championship events but also in one-off team meetings. Over ninety never-before-published photos and championship listings complement the evocative text. Complete with 100 nostalgic pictures from racing throughout the decade, and a comprehensive listing of major championship dates, venues and winners.

Manuals N. America,  
Incorporated

Expert practical advice from an experienced race engine builder on how to build a high-performance version of Ford's naturally aspirated 4-cylinder 1600, 1800 & 2000cc Pinto engine which has been used in

Ford's most popular cars (Escort, Capri, Cortina & Sierra - Ford/Mercury Capri, Pinto, Bobcat in USA) over many years. Whether the reader wants a fast road car or to go racing, Des explains, without using technical jargon, just how to build a reliable high-power engine using as many stock parts as possible and without wasting money on parts and modifications that don't work. Also covers Cosworth versions of Pinto engines and fitting Cosworth heads to Pinto blocks. Does not cover 1300, E-Max 1600 or American-built 2300.

Causey Enterprises, LLC

Ten years have passed since the original edition of this book was published, but Alfa Romeo enthusiasts everywhere are more active today than ever in preserving, modifying and racing these excellent cars. Throughout this time, the author in true Alfista fashion, never stopped looking for and trying new techniques to increase the power, overall performance and reliability of Alfas and their engines. This book is the result of much research, and also first-hand experience gained through many Alfa rear wheel drive model

---

projects, from the 105 series to the motor racing season in America. the last of the 75 models. There is a lot of completely new information regarding TwinSpark Cylinder head mods, big-brake mods, LSD adjustment procedure, electrical system improvements, plus many flow-bench diagrams, dyno plots, and much more.

Moody's International Manual

Veloce Publishing Ltd

Motor Racing at Nassau is a collection of images that complements the descriptive account of the Bahamas Speed Weeks. It conveys in pictures the roller-coaster story of the eclectic mix of people and their cars that came to Nassau to enjoy each other's company at the end of

the motor racing season in America. From its stuttering start in 1954, though its halcyon days in the late 1950s, to its demise in 1966, top drivers from America and Europe came to compete in the races.
