evidence. The text has been cited and relied upon hundreds of times by courts of all levels across Canada, in both civil and criminal cases. It has also been adapted by the National Judicial Institute for their electronic bench book for trial judges. The new fifth edition carries on the practice in earlier editions of using new appellate level authorities to illustrate the law. It also chronicles significant changes in the law of self-incrimination and hearsay, as well as providing a concise and organized guide for dealing with section 24(2) exclusionary applications in the "Grant" era. It focusses on minimizing emissions and exhaust-gas treatment. Innovations by Bosch in the field of

diesel-injection technology have made a significant contribution to the diesel boom. Calls for lower fuel consumption, reduced exhaust-gas emissions and quiet engines are making greater demands on the engine and fuel-injection systems. Japanese Current Research Cengage Learning Newfoundland songs are diverse in origin. Vast numbers of them come from the British Isles, especially from England and Ireland; many are composed in Newfoundland, usually on English or Irish models; a lesser number of American, Canadian, and French songs are current. The ballads

to be found in the Child collection are probably the oldest now sung. Then there are many seventeenth- and eighteenth-century broadside ballads, particularly English, and many nineteenth-century compositions. Such are the backgrounds from which the compilers of this volume have drawn their unusually interesting and delightful collection of ballad texts and ballad music. Expeditions to the island in 1920 and 1929 furnished the tunes; and a genuine interest in folk-literature assured the care and accuracy of the work. Treaties and
