By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching,

it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

This densely illustrated, hands-on guide to diesel engine maintenance, troubleshooting, and repair renders its subject more user-friendly than ever before. Finally, boatowners who grew up with gas engines can set aside their fears about tinkering with diesels, which are safer and increasingly more prevalent. As in other volumes in the International Marine Sailboat Library, every step of every procedure is illustrated, so that users can work from the illustrations alone. The troubleshooting charts in the second chapter--probably the most comprehensive ever published--are followed by system-specific chapters, allowing readers to quickly diagnose problems, then turn to the chapter with solutions. Diesel engine systems covered include: mechanical; oil; fresh- and raw-water cooling; low- and high-pressure fuel; exhaust; starting; charging; transmission and stern gear.

"No external observer knows more about Myanmar ' s security and intelligence apparatus than Andrew Selth. In this book he presents an account of the structure and functions of Myanmar ' s deep state, along with a tale of personal ambition, rivalry and ruthless power politics worthy of John Le Carre. A thoroughly educative, entertaining and intriguing read." — Professor Michael Wesley, Dean, College of Asia and the Pacific, The Australian National University "Andrew Selth has once again amply illustrated the depth and penetration of his study of Myanmar/Burma and its institutions. This work on the more recent aspects of the country ' s intelligence apparatus goes beyond a masterful and comprehensive analysis of the Burmese intelligence community, and probes the social and institutional bases of the attitudes giving rise to that critical aspect of power. We are once again in Dr Selth ' s debt. This is required reading for serious observers of the Burmese scene." — David I. Steinberg, Distinguished Professor of Asian Studies Emeritus, Georgetown University "By lifting the lid on a pervasive yet secretive intelligence apparatus, Andrew Selth makes an outstanding contribution to Myanmar Studies. For scholars and practitioners alike, this book provides an essential history of a security state that remains powerful even during the transition away from overt authoritarian rule." — Professor Ian Holliday, Vice-President (Teaching and Learning), The University of Hong Kong
