'If you, like me, come into the world white and completely blank, with nothing on you at all, you are totally dependent on what they make of you.' A young painter, loved for his fine and true-to-life portraits, receives a commission that is unlike any he's had before: make a portrait of a dead boy. 'You will save a life with it,' says the boy's extremely rich father. The painter knows he will have to surpass himself. He takes on the job. But who was the boy? Why is he dead? Why, when the painting is finished, does the father not come to collect it? And why does the artist undertake this painting? The Portrait is a thrilling novel about the desire to bring someone into the world. But it is also about love and death, betrayal and trust, and truth and falsehood.

Tales of shipwrecks have a definite fascination and a universal appeal. They are not only exciting and thrilling but usually contain some element of mystery. They recount the struggle of man to survive, pitting himself, or in several instances-herself, and the ship against the elements of destruction, calling forth his utmost skill, his strength, and his ingenuity, often with his very life as the high stake. Some emerge heroes; others are never heard from again. In this book are told only a selected number of the outstanding number of the shipwrecks of the Great Lakes. To attempt to put into a single book all the shipwrecks occurring on the Great Lakes would be sheer folly. Here are true tales of dozens of thrilling shipwrecks told in an interesting manner - complete with

dozens of photographs. Heroic rescues from Duluth to the St. Lawrence make fascinating reading. Shipwrecks are recounted, covering a period of over one hundred years, from the old wooden immigrant steamers and the lofty-masted sailing vessels, up to the present ships of today. Much lake lore is woven into the tales of the wrecks, but nothing has been retold from Mr. Bowen's other books, *Lore of the Lakes* and *Memories of the Lakes*.

...the relationship between employment growth and output growth...is greatly

affected by the functioning, efficiency and institutional structure of the labor market. --Joseph Stiglitz, Chief Economist Despite the resumption of economic growth in most LAC countries since the late 1980s, improvements on the employment/unemployment front have been sluggish at best, with a few notable exceptions. In many countries, renewed growth in LAC in the 1990s has so far failed to generate adequate new jobs in place of those lost during the adjustment, and to restore wages to pre-crisis levels. The focus of this book is on: • the performance of labor markets in the LAC region since the beginning of significant structural reforms most countries in the region have undertaken • the structure of labor markets, institutions, and incentive structures; • the effects of that structure on employment, earnings, income distribution, and poverty levels; • the role of labor market institutions in labor market trends; • the options for reform and the benefits of comprehensive labor reforms, as evidenced inside and outside the region; • labor policy reforms to improve in a sustainable way the

employment/unemployment outlook.
