As if the original LC wasn ' t enough Yamaha
went several stages further in 1983 with the
introduction of the YPVS equipped version.

the Powervalue won many a heart, and race too,
In more modern times, as people flock to Elsie
ownership, it may lag behind in the desirability
stakes, but the YPVS is still an attractive
proposition for restoration.

The RD first appeared in air cooled format in 1973, looks wise it had moved on little from its predecessor the piston ported R5 and YDS7, and ran almost unchanged albeit a few cosmetic touches for the next seven years. There was little in the way of power improvements with the 30bhp 250, while the

38bhp 350 grew into the long stroke RD400, kicking out just over 40bhp ...
