*A Short History of English Law* London, Printed by order of the Trustees, 1903- . The adventurous Countess Harleigh finds out just how far some will go to safeguard a secret in Dianne Freeman's latest witty and delightful historical mystery . . . Though American by birth, Frances Wynn, the now-widowed Countess of Harleigh, has adapted admirably to the quirks and traditions of the British aristocracy. On August twelfth, otherwise known as the Glorious Twelfth, most members of the upper class retire to their country estates for grouse-shooting season. Frances has little interest in hunting—for birds or a second husband—and is expecting to spend a quiet few months in London with her almost-engaged sister, Lily, until the throng returns. Instead, she's immersed in a shocking mystery when a friend, Mary Archer, is found murdered. Frances had hoped Mary might make a suitable bride for her cousin, Charles, but their courtship recently fizzled out. Unfortunately, this puts Charles in the spotlight—along with dozens of others. It

seems Mary had countless notes hidden in her home, detailing the private indiscretions of society's elite. Frances can hardly believe that the genteel and genial Mary was a blackmailer, yet why else would she hoard such juicy tidbits? Aided by her gallant friend and neighbor, George Hazelton, Frances begins assisting the police in this highly sensitive case, learning more about her peers than she ever wished to know. Too many suspects may be worse than none at all—but even more worrying is that the number of victims is increasing too. And unless Frances takes care, she'll soon find herself among them . . . “Engrossing . . . Freeman takes a witty look at Victorian polite society. Historical mystery fans will be delighted.” —Publishers Weekly

Classic Keys is a beautifully photographed and illustrated book focusing on the signature rock keyboard sounds of the 1950s to the early 1980s. It celebrates the Hammond B-3 organ, Rhodes and Wurlitzer electric pianos, the Vox Continental and Farfisa combo organs, the Hohner Clavinet, the Mellotron, the Minimoog and other famous and collectable instruments. From the earliest days of rock music, the role of keyboards has grown dramatically. Advancements in electronics created a crescendo of musical invention. In the thirty short years between 1950 and 1980, the rock keyboard went from being whatever down-on-its-luck piano awaited a band in a bar or concert hall to a portable digital orchestra. It made keyboards a centerpiece of the sound of many top rock bands, and a handful of

them became icons of both sound and design. Their sounds live on: Digitally, in the memory chips of modern keyboards, and in their original form thanks to a growing group of musicians and collectors of many ages and nationalities. Classic Keys explores the sound, lore, and technology of these iconic instruments, including their place in the historical development of keyboard instruments, music, and the international keyboard instrument industry. Twelve significant instruments are presented as the chapter foundations, together with information about and comparisons with more than thirty-six others. Included are short profiles of modern musicians, composers, and others who collect, use, and prize these instruments years after they went out of production. Both authors are avid musicians, collect and restore vintage keyboards, and are well-known and respected in the international community of web forums devoted to these instruments.

To Live Is Christ "O'Reilly Media, Inc." Dibs in Search of Self is a book by clinical psychologist and author Virginia Axline published in 1964.[1] The book chronicles a series of play therapy sessions over a period of one year with an emotionally crippled boy (Dibs) who comes from a wealthy and highly educated family. Despite signs that he is gifted, his mother, father, and most of his teachers perceive him as having an emotional or cognitive disorder. Dibs presents abnormal social behavior by continuously isolating himself, rarely speaking, and physically lashing out at those around him. When Axline first meets Dibs's parents, they describe her as their son's last hope. The book details the interactions between Dibs and Axline and utilizes actual session transcripts for dialogue.

THE RUMOUR Every man has a right to be conceited until he is famous—so it is said; and perhaps unconsciously, Mark Brendon shared that opinion. His self-esteem was not, however, conspicuous, although he held that only a second-rate man is diffident. At thirty-five years of age he already stood high in the criminal investigation department of the police. He was indeed about to receive an inspectorship, well earned by those qualities of imagination and intuition which, added to the necessary endowment of courage, resource, and industry, had created his present solid success. A substantial record already stood behind him, and during the war certain international achievements were added to his credit. He felt complete assurance that in ten years he would retire from government employ and open that private and personal practice which it was his ambition to establish. And now Mark was taking holiday on Dartmoor, devoting himself to his hobby of trout fishing and accepting the opportunity to survey his own life from a bird's-eye point of view, measure his achievement, and consider impartially his future, not only as a detective but as a man. Mark had reached a turning point, or rather a point from which new interests and new personal plans were likely to

present themselves upon the theatre of a life hitherto devoted to one drama alone. Until now he had existed for his work only. Since the war he had been again occupied with routine labour on cases of darkness, doubt, and crime, once more living only that he might resolve these mysteries, with no personal interest at all outside his grim occupation. He had been a machine as innocent of any inner life, any spiritual ambition or selfish aim, as a pair of handcuffs. This assiduity and single-hearted devotion had brought their temporal reward. He was now at last in position to enlarge his outlook, consider higher aspects of life, and determine to be a man as well as a machine.
