The New York loft jazz scene of the 1970s was a pivotal period for uncompromising, artist-produced work. Faced with a flagging jazz economy, a group of young avant-garde improvisers chose to eschew the commercial sphere and develop

alternative venues in the abandoned factories and warehouses of Lower Manhattan. *Loft Jazz* provides the first book-length study of this period, tracing its history amid a series of overlapping discourses surrounding collectivism, urban renewal, experimentalist aesthetics, underground archives, and the radical politics of self-determination.

For DownBeat, the preeminent publication of the jazz world, Miles Dewey Davis was one of its most cherished subjects. Since it began covering the jazz scene in 1939, no other artist has been more diligently chronicled in its pages than Davis. The beauty of this collection is seeing the development of an artist over time. The reviews of his music go from quietly introducing a new talent to revering, perhaps, the greatest jazz artist of his generation. The feature articles begin with a very young, very

polite Davis lamenting, "I've worked so little. I could probably tell you where I was playing any night in the last three years." As he develops, the interviews show Davis gaining confidence and stature, showing swagger and becoming the over-the-top, say-it-like-it-is showman that made every interview an event. The Miles Davis Reader compiles more than 200 news stories, feature articles, and reviews by some of the greatest writers in jazz into one volume. It delivers a patchwork of his words and music – in the moment, as they happened. With several lengthy features added along with a dozen new photographs, this new edition is a beautiful series of snapshots, a year-by-year ride through the many phases of Davis as an artist and as a man.

Unemployed newspaper reporter Dexter Vega is hired to investigate the drowning of Liam Fleming, the son of a wealthy real estate investor in Siesta Key. Vega's search for clues takes him from one end of this picturesque barrier island off the coast of Sarasota to the other. But nothing adds up. Liam was young, an experienced swimmer, apparently healthy—and drowned in four feet of water. And why was Liam living in a beach shack? Why was he buying properties and not selling them? The police are getting nowhere as they identify every beach bum on Siesta Key as a suspect. But Vega narrows his investigation to two—one who disappears, and the other he's falling in love with. Beach bums and hippies go missing, while greed, beachfront property, and drugs swirl in vicious loops—and when they converge, Vega puts his life on the line to find the truth.
