The Triumph 350cc and 500cc unit-construction twins were called the 'C' Series, and were made between 1957 and 1974. The range started with the 350cc 'Twenty-one' - a sedate touring bike with full enclosure in the form of the famous Triumph 'Bathtub' - went through such famous names as the Speed Twin, Tiger 100 and Trophy, and ended with the rip-roaring Daytona and the off-road Adventurer. This book deals with the whole range, giving the history of all the models, and also describes the restoration of a 1969

Trophy T100C.

In 2010 the UK government
proposed huge cuts and market-
driven reforms for
Universities. The proposals

provoked widespread opposition
in the form of street
protests, occupations, and
online campaigns. As the dust
settles, Andrew McGettigan
surveys the emerging brave
new world of Higher
Education. Displaying a
stunning grasp of the policy
details, he looks at the long
term impact of the changes,
which have been obscured by
the focus on tuition fee
increases. What will be the
role of universities within
society? How will they be
funded? What kind of
experiences will they offer
students? Written in a clear
and engaging style, The Great
University Gamble outlines
the architecture of the new
policy regime, which many
find difficult to grasp. It
is an urgent warning that our
Universities are being
transformed from institutions
of real learning to profit-

driven degree factories.

P.C. and Kristin Cast, the #1 New York Times bestselling authors of the House of Night phenomenon, return to the scene with *The Dysasters*—the first action-packed novel in a new paranormal fantasy series. Adoptive daughter of a gifted scientist, Foster Stewart doesn't live a "normal" life, (not that she'd want to). But controlling cloud formations and seeing airwaves aren't things most eighteen year olds can do. Small town star quarterback and quintessential dreamy boy next door, Tate "Nighthawk" Taylor has never thought much about his extra abilities. Sure, his night vision comes in handy during games, but who wouldn't want that extra edge? From the moment Foster

and Tate collide, their worlds spiral and a deadly tornado forces them to work together, fully awakening their not-so-natural ability - the power to control air. As they each deal with the tragic loss of loved ones, they're caught by another devastating blow - they are the first in a group of teens genetically manipulated before birth to bond with the elements, and worse... they're being hunted. Now, Foster and Tate must fight to control their abilities as they learn of their past, how they came to be, who's following them, and what tomorrow will bring... more DYSASTERS?

While revealing the secrets of the best builders, he lucidly demonstrates what makes these boats the best, furnishing knowledge that can then be applied while choosing any sailboat of whatever make.
