**The Lakes Region of New Hampshire** Haynes Manuals N. America, Incorporated  
With more than 200 rare images spanning a century of memories, The Lakes Region of New Hampshire, Volume II explores central New Hampshire's resort communities, its early rail service, and the recreation of the area. Author and historian Bruce D. Heald, Ph.D., has combined an exciting collection of images with a thoroughly researched text to continue the story of these unique communities. Discover the fascinating history of the region around Lake Winnepesaukee, Squam, Newfound, and Lake Wentworth. Visit the villages of Wolfeboro, Sandwich, Laconia, Franklin, the Ossipees, and Plymouth. Dr. Heald's experiences as an author, professor, and as Chief Purser aboard the MS Mount Washington for more than 30 years contribute greatly to this impressive pictorial collection.

*Unhinged*  
Unhinged: Exposing Liberals Gone Wild is Michelle Malkin's unrestrained and uncensored exposé of hate-mongering Leftists. With wit, wisdom, and a bullet-proof vest, Malkin ruthlessly and raucously skewers the myths of liberal tolerance, peace, and civility while responding to the incendiary insults and vile slurs directed at her and other conservatives. With infuriating details that are not for the faint of heart, Malkin chronicles the bizarre world of foaming-at-the-mouth Leftists in their natural habitats: the mainstream media, academia, Hollywood, and Washington.  
*Fearless Entertaining*  
Tens of thousands of mechanical engineers are engaged in the design, building, upgrading, and optimization of various material handling facilities. The peculiarity of material handling is that there are numerous technical solutions to any problem. The engineer's personal selection of the optimal solution is as critical as the technical component. Michael Rivkin, Ph.D., draws on his decades of experience in design, construction, upgrading, optimization, troubleshooting, and maintenance throughout the world, to highlight topics such as: • physical principles of various material handling systems; • considerations in selecting technically efficient and environmentally friendly equipment; • best practices in upgrading and optimizing existing bulk material handling facilities; • strategies to select proper equipment in the early phases of a new project. Filled with graphs, charts, and case studies, the book also includes bulleted summaries to help mechanical engineers without a special background in material handling find optimal solutions to everyday problems.

**Building a Special with Ant Anstead Master Mechanic**  
Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.
